FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/ modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt./Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third part, Part C of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this Statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluk/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D.Block level will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along with the corresponding codes of 1981.

This publication is a joint venture of the State Govt./UT administration and the Census Organisation. The data have been collected and compiled under the direction of Ms. Sobha Nambisan, Director of Census Operations, Karnataka on behalf of the State Govt. administration which has borne the cost of printing. The task of planning, designing and coordination of the publication was initiated by Dr.K.P.Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M.Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K.Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri A.K.Singh, Deputy Director who was assisted by S/Shri V.K.Jain and Hariram, Investigators and staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K.Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi

June 11, 1992.

A.R.Nanda

Registrar General, India

PREFACE

In the foreword to the 1991 series of the District Census Handbooks, Sri A.R.Nanda, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain the salient data on the population for every village and town as revealed by the 1991 Census. They also contain a wealth of information regarding these villages and towns which, although not part of the population census, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information has also considerable importance in the context of planned development.

The District Census Handbook is therefore divided into two parts: Part A containing information regarding each village and town (Village Directory and Town Directory) which is not census data and part B which contains the data on the population collected during the 1991 Census - the Primary Census Abstract. The data published in Part B was collected in February 1991 at the time of the population census. This data was then manually tabulated in the Regional Tabulation Offices set up for the purpose. Subsequently, as a part of the countrywide project taken up in collaboration with the National Informatics Centre, the Primary Census Abstract data was computerised. The data for Part B of the District Census Handbook was therefore available on tape for the entire country by November 1992. Since the Primary Census Abstract data was available first on the computer, it was decided to publish the District Census Handbooks in two separate volumes, with Part B appearing in print first.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in early 1990 and continued till the middle of 1992. For operational convenience, the Village Directory format was divided into two portions, one relating to the area and land use particulars and the other relating to the amenities available in each village. The relevant formats were mailed to the Deputy Commissioners of Districts and Chief Secretaries of Zilla Parishads for obtaining the villagewise particulars. Similarly the Town Directory formats were mailed to the Deputy Commissioners and Commissioners of Corporations. The villagewise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1981 District Census Handbooks. The villagewise information, thus finalised was also computerised during 1992-93 at the National Informatics Centre, Bangalore as in the case of Primary Census Abstract.

The National Informatics Centre, Bangalore has undertaken to supply the camera ready copies for the District Census Handbooks and this may enable us to bring out the District Census Handbooks fairly early.

In the preparation of the District Census Handbooks the role of the Census Directorate is that of data collector. For accomplishing this task we have had the ready co-operation of the staff of different departments of the State Government. The cost of printing of the District Census Handbooks is borne by the Government of Karnataka.

I take this opportunity to offer my grateful thanks to all the officers and officials who have been actively involved in the compilation of this volume.

I am thankful to Shri A.Venkateshan, the State Informatics Officer, National Informatics Centre, Bangalore for all the assistance he and his staff members have rendered for computerisation of the data and for preparation of the camera ready copy of the manuscripts of all the Districts.

I am deeply grateful to Shri A.R.Nanda, I.A.S., the Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Shri M.K.Jain, the present Deputy Registrar General (SS) as well as to Mrs. Minati Ghosh, Deputy Registrar General (Map).

Lastly, I am thankful to the Government of Karnataka for having readily agreed to bear the cost of printing these District Census Handbook volumes and to the Director of Printing, Stationery and Publications for the keen interest he has evinced in bringing out these publications.

Bangalore,

Date: 16-11-1992

Sobha Nambisan
Director of Census Operations,
Karnataka.

ANALYTICAL NOTE

Brief History of the District Census Handbook :-

The District Census Handbook series was, for the first time, included in the census publication programme at the 1951 census in order to satisfy the growing demand for micro-level data by the administrators, the planners and the other census data users. The District Census Handbooks sought to replace 'Part IV - Taluk Tables' and 'Part V - Village Tables' of the earlier censuses and to present the basic demographic and economic data in the form of 'Primary Census Abstract' in respect of each and every village and town within the jurisdiction of the district concerned. In addition, these volumes were to contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

At the 1961 census, the scope of the District Census Handbook was greatly enlarged by incorporating in it - (i) a descriptive account of the district, (ii) a set of non-census tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban (census enumeration block level) Primary Census Abstract containing the ninefold industrial classification of workers. In a somewhat general way, information on the availability of certain basic amenities in villages and towns, such as the sources of drinking water and educational institutions, was also presented in these volumes. These general guidelines were, by and large, followed in Karnataka too. However, the scope of the District Census Handbooks of 3 out of the then existing 19 districts, namely Bangalore, Dharwar and Mysore, was confined to the publication of the village-wise and urban (census enumeration block wise) Primary Census Abstract only.

The 1971 census witnessed an overall improvement in the matter of compilation as well as presentation of the data. A country-wide uniformity in approach and a comprehensive coverage are the hall marks of this series of publications. In 1971, the District Census Handbook was split up into three portions - (i) Part A - consisting of land use data on villages and also the data on the nature

and extent of amenities and services available in the villages and towns of the district - presented in the form of Village Directory and Town Directory respectively, (ii) Part B - consisting of the Primary Census Abstract (including the nine-fold industrial classification of workers) for the district, the taluks, the towns, the villages and the census enumeration blocks in case of towns; and (iii) Part C - consisting of an analytical note based on an analysis of the census data as well as the non-census data included in the volume, a set of tables depicting the administrative statistics in minute detail, a set of statistical tables based on the census data in respect of the district and the constituent taluks and towns thereof besides a set of tables generated on the basis of the village-wise census data in association with the village-wise data on the availability of amenities. The main objective was to present a comprehensive and intelligible portrait of the district and an overview of the developmental programmes implemented in the district during the preceding decade. Publication of the District Census Handbooks was planned in such a way as to minimise the delay inherent in the compilation of a voluminous mass of data gathered from different sources. Accordingly, 'Part A', comprising the Village Directory and the Town Directory for the finalisation of which there was no apparent need to wait till the completion of the tabulation of the data gathered at the census, was to be published first and 'Part B', consisting of the Village/Urban Primary Census Abstract was to be released next. A lower priority was assigned to 'Part C' for the obvious reason that besides administrative statistics it was to include a set of socio - demographic and economic tables generated on the basis of the data gathered at the census and an analytical note prepared thereof. In Karnataka, however, 'Part A' and 'Part B' portions of the District Census Handbooks were combined together and published in a single volume for each district except Bangalore. In the case of Bangalore District, since it was felt that the size of such a combined volume would be unwieldy, Part A and Part B were published separately. As regards 'Part C', compilation of data took more time than anticipated and, in addition, there was an inordinate delay in executing the printing job at the State

Directorate of Printing. As a result, only a portion of Part C (depicting some of the census tables) relating to Bangalore District was published somewhat belatedly and the proposal to publish the remaining portion of Part C for Bangalore District as well as the entire portion of Part C for the other districts was finally abandoned.

Instead of witnessing an expansion as in the past two censuses the scope of the 1981 series of the District Census Handbooks was curtailed to a considerable extent in that it was confined to the publication of Village Directory, Town Directory and the Village/Urban Primary Census Abstract. Thus, at the initial stage itself there was no proposal to compile and publish the administrative statistics and the various socio-demographic and economic tables based on the census data, that is, the portion which constituted 'Part C' of the 1971 series. But for this change, the approach in 1981 regarding uniformity and comprehensiveness were very much the same as in 1971. In order to avoid delay in publication, as in the past, the District Census Handbook was proposed to be published in two parts, namely, 'Part A' consisting of the Village Directory and Town Directory and 'Part B' consisting of the Village/Urban Primary Census Abstract besides the Special Primary Census Abstracts at taluk/town level in respect of the Scheduled Castes and Scheduled Tribes population of the district.

At the 1981 census, the contents of the Village Directory and the Town Directory were slightly enlarged and the formats were restructured. In the Village Directory all the amenities except power supply were brought together under a broad heading with the provision that 'in case an amenity is not available in the referent village, the distance to the nearest place where that particular amenity is available may be indicated in broad ranges'. A new item 'approach to the village' was included. In the remarks column, a provision was made to report the number of copies of newspapers in circulation in the village as also the number of motor cars, the number of motor cycles and the number of tractors available in the village. Further, in order to examine whether there is any correlation between the availability of amenities and the population size of a village, an additional column was provided in the Village Directory to indicate the population and

number of households. The contents of Part A were further enlarged by including two appendices, namely, a list of villages not having any amenities and a distribution of villages according to the proportions of Scheduled Castes and Scheduled Tribes in the total population of the village. The Town Directory formats were also modified by the addition of a few items such as class of town, population, Scheduled Castes and Scheduled Tribes population, decadal growth rate of population, working women's hostel, adult literacy classes/centres, storage system regarding drinking water supply etc., and also by providing for recording the information about the nearest place (and distance) having educational, medical and fire-fighting facilities in case such a facility is not available in the referent town. As compared to 1971, while one statement indicating religion-wise population of the town was dropped, another statement to provide information about the amenities available in notified slums in Class I and Class II towns was added. As regards the Primary Census Abstract of towns, the urban block-wise presentation of data was given up and details were presented only upto the level of Wards/Divisions. However, information on the number of persons belonging to Scheduled Castes and Scheduled Tribes was furnished for each census enumeration block within the town in the form of an appendix and an annexure thereto provided the description of the boundaries of each census enumeration block. Further, instead of the nine-fold classification of workers adopted at the 1971 census, on this occasion the classification was restricted to 4 categories. In Karnataka, in 1981 also, both Part A and Part B portions of the District Census Handbooks were published together in a single volume for each district. However, because of certain technical compulsions, all the information relating to Scheduled Castes and Scheduled Tribes was excluded from the main formats and was presented separately at the end in the form of a Supplement (separate booklets were brought out in the case of Bidar and Mandya Districts).

2. Scope of the 1991 District Census Handbooks:

As in 1981, in 1991 too, the District Census Handbooks are proposed to be brought out in two portions, namely Part A consisting of the Village Directory and the Town Directory and Part B

consisting of the Village/Urban ward-wise Primary Census Abstract in addition to the District Primary Census Abstract and the Special Primary Census Abstract in respect of the Scheduled Castes and Scheduled Tribes. Though, the scope of the 1991 series of the District Census Handbooks has, by and large, remained the same as in 1981, a few significant changes have been made in the Village Directory format as well as the Primary Census Abstract format. In Karnataka, unlike at the previous censuses, on this occasion, the 'Part A' and 'Part B' portions of the District Census Handbooks of each district are being brought out in separate volumes.

The manner of presentation of data has also undergone a significant change in that the Village Directory and the Primary Census Abstract data are presented according to the location of villages and towns within the jurisdiction of a Community Development Block rather than their location within a taluk*. In other words, the traditional practice of taluk-level presentation of data has now been given up in preference to the Community Development Block level presentation of data which is considered as more meaningful in the present day context. Since C.D. Block is the lowest administrative unit for developmental planning, the choice of the C.D. Block as the unit for data presentation is expected to help the planners in formulating micro-level developmental plans. Another innovation at the 1991 census is the arrangements made for the dissemination of the data in collaboration with the National Informatics Centre through its country-wide computer network. In the published volumes of the District Census Handbooks, therefore, the computer codes assigned to the villages in the 1991 census and the corresponding codes in 1981 are presented so as to facilitate the data users who may prefer to use the data either from magnetic tapes or floppies.

(i) Village Directory :

The Village Directory format adopted for the 1991 series has 18 columns. When examined with reference to the 1981 format it will be noticed that two columns have now been left out - while one of these columns refers to the 'staple food' the other refers to the 'remarks' under which, information about the places of religious, historical or archaeological interest in the village as also information about the number of copies of newspapers in circulation, the number of motor cars, motor-bicycles and tractors available in villages was published in 1981. As compared to 1981, there is no change in the scope and coverage of the information presented in the 18 columns of which 8 are devoted for amenities and 6 are meant for indicating the area of the village and the land use pattern. The remaining four columns are meant for indicating the location code and name of the village, total population and the number of households enumerated in the village and the name of the nearest town as also the distance to that town. The aspects covered under the amenities are: educational, medical, sources of drinking water supply, postal and telegraph, weekly market, communication, nature of approach road and power supply. Further, if a village did not have any educational facility at all, instead of merely reporting the fact and stopping at that, an indication of the distance (in ranges) that the villagers have to traverse to reach a place with educational facilities (at the basic level) is reported. The same procedure of reporting is adopted regarding medical facilities, drinking water supply, postal and communication as well as weekly market facilities. The distance ranges adopted for reporting are the same as in 1981, namely -5 km, 5 - 10 km and 10+km. In an explanatory note, which precedes the presentation of the Village Directory Statements, details about the abbreviations used under various columns are furnished.

* In Karnataka, the "Taluk Panchayat Samiti" corresponds to the Community Development Block, and for the sake of maintaining uniformity with the all-India pattern, the term C.D. Block has been used throughout in the District Census Handbooks. The jurisdiction of a Taluk Panchayat Samiti is coterminous with that of the corresponding Taluk but excludes the statutory towns.

The main agency which has furnished the village-wise information on amenities is the Zilla Parishad which in turn has collected the relevant particulars through its field formations, namely the Chief Executive Officers (i.e., the Block Development Officers) of the various *Taluk Panchayat Samitis*. These details were examined for consistency as well as with reference to the particulars reported in 1981 and cases of deterioration or of abnormal developments were referred back for re-verification and rectification. For instance, as compared to 1981, for several villages, Wells and Tanks did not find a mention as a source of drinking water supply. When referred back, the concerned Chief Executive Officers clarified that in most of these cases, the drinking water wells of yester years have either dried up or fallen into disuse on account of the increasing number of borewells drilled in such villages and also because of the implementation of the National Rural Water Supply Scheme, the Mini-Water Supply Scheme and Accelerated Water Supply Scheme etc. So also regarding the availability of pucca approach road facility several instances of deterioration were noticed. Such cases too were referred back so that the factual data may be verified again and reported for publication. Information about the number of educational institutions, nature of government run medical institutions and postal, phonocom and telegraph facilities as furnished by these officers have been cross-checked with the data obtained from the concerned Departments as well to ensure a higher level of reliability.

In case of uninhabited villages, i.e., villages which returned 'nil' population at the 1991 census count, except the name and the total area no other information is furnished. Instead of putting a dash under each column to indicate this fact, the word 'uninhabited' is printed along the line.

In order to facilitate easy reference, an alphabetical list of villages is given at the beginning in respect of each C.D. Block. This list indicates the code numbers assigned to the villages for purposes of census enumeration as well as the computer codes assigned (at the stage of computerisation) as also the corresponding codes according to the 1981 census. At the end of the Village Directory the following appendices are given:- C.D. Block-wise abstract of amenities; list of villages

not having any amenities except Drinking Water, land utilisation data in respect of non-municipal towns and distribution of villages according to the proportion of Scheduled Castes population and Scheduled Tribes population.

(ii) Town Directory :

As in 1981, in 1991 too, there are seven statements which furnish information on the following aspects - growth history; physical aspects and locational particulars; municipal finance; civic and other amenities; civic amenities available in the notified slums of Class I and Class II towns; medical, educational, recreational and cultural facilities; and trade, commerce, industry and banking. The scope of the various column headings adopted in 1981 has remained unchanged in 1991. However, in Statement-I, slight modifications have been made to accommodate the 1991 census data - an additional column is provided for indicating the 1991 population and the growth rate registered by the town during the decade 1981-91. In Statement-I an additional column has been provided for indicating the name of the C.D. Block within the jurisdiction of which the referent town is located. It may be incidentally mentioned that, in Karnataka, the civic bodies functioning in the Statutory Towns do not fall within the administrative jurisdiction of the C.D. Blocks (i.e., Taluk Panchayat Samitis).

In the Town Directory statements, the towns are arranged in an alphabetical order of their names and the aggregate particulars about urban agglomerations if any in the district have also been furnished in the same order. Where an urban agglomeration includes two or more independent towns, the names of these constituent towns are shown in the correct sequence as per the alphabetical arrangement of their names. But, the details which ought to have been furnished in the subsequent columns have been skipped with a view to avoiding repetition. Instead, immediately after the name of the town, a cross reference is given by printing the message "see urban agglomeration". The name of the core town of the urban agglomeration too appears at its correct sequence with the legend printed thereafter and immediately below that, i.e., in the next line the same name with the suffix urban agglomeration appears again without bearing any

serial number. Against this name the cumulative totals for the urban agglomeration as a statistical unit are presented wherever such a procedure is relevant and meaningful. This line is then followed by those relating to the constituent towns of the urban agglomeration starting with the name of the core town and followed by the others arranged in an alphabetical order of their names. This procedure, it may be recalled, is the same as that adopted in 1971 as well as in 1981 and this enables one to have a fairly good assessment of the data relating to the smaller civic administrative units that form part of the larger unit and also of the aggregate data relating to the larger unit itself. In case there are 'outgrowths' which are not 'urban areas' in their own right, the particulars relating to such areas are merged with the data relating to the concerned core town. Such towns which have 'outgrowths' are marked out by an asterisk mark and for all purposes, the term 'town' would cover the core town as well as its outgrowths. In an appendix the names of the revenue villages or areas which have been identified as outgrowths and the population thereof are indicated separately. In the case of villages certain parts of which are regarded as outgrowths while the other parts are considered as 'rural', the data relating to the outgrowths (i.e., the urban component) is included in the Town Directory statements and the data pertaining to the rest of the portion retained in the rural frame appears in the Village Directory. In Statements II, III and VI where it is not relevant to combine the data for the urban agglomeration as a whole, the legend 'see the constituent towns' is printed against the name of the urban agglomeration instead of allowing the entire line to remain blank.

The particulars furnished in Statement I which deals with the growth history are entirely based on the current as well as the previous censuses. As such, this has been compiled in the Census Directorate without seeking information from the concerned civic bodies. The details presented in the remaining statements have been furnished mainly by the concerned civic authorities such as the Municipal Commissioners, Chief Officers of towns, Secretaries of Mandal Panchayats, Administrative Officers etc. Except for the information regarding municipal finance, most of the information on other

aspects had to be gathered by the civic authorities from several offices and institutions located in the town through correspondence and or by deputing officials for the purpose. The particulars so furnished were scrutinised in the first stage and cases of abnormal variations as compared to the situation in 1980 and also inconsistencies were referred back to the reporting agency for reverification and rectification so as to ensure that the details now given in the Town Directory represent the factual position.

The scope of the information presented under various columns and the abbreviations used are explained in a note which precedes the presentation of the Town Directory statements.

(iii) Primary Census Abstract :

The Primary Census Abstract is presented village-wise in the case of 'rural' areas and town-wise (upto ward or division level) in the case of urban areas. The outgrowths of a town are treated at par with a ward or division of the core town irrespective of the number of census enumeration blocks into which it is constituted. Within the district, the Community Development Blocks are arranged in the alphabetical order of their names in English and covered one after the other in that order. For each C.D.Block, the total figures with the rural-urban break-up is given first and this is followed by the village-wise data and then by the ward-wise data for the towns if any, within the jurisdiction of the C.D.Block. In the case of a village of which only a portion has been incorporated in a town or has been recognised as an outgrowth of a town, the details relating to only that portion which is not so incorporated or so recognised but has been retained in the rural frame is presented under various columns. The names of villages (and their respective areas) which are fully included in urban areas or have been recognised as outgrowths of towns for purposes of the 1991 Census (but are retained in the jurisdictional lists of the Survey and Settlement authorities) if any within the boundaries of the C.D.Block are indicated in the flyleaf which precedes the PCA statement for the C.D.Block

After presenting the PCA data for all the villages and towns covered by the C.D.Blocks in the district,

the PCA data relating to all the urban areas of the district (i.e., statutory as well as non-statutory towns) are furnished. For this purpose, the towns/urban agglomerations are arranged in an ascending order of their location code numbers. And, for each town the ward or division-wise details are presented here.

In Karnataka, as already mentioned, the jurisdiction of a C.D.Block is coterminus with that of the Taluk of the same name, but excludes the areas incorporated in statutory towns and cities. By and large, a C.D.Block corresponds to the rural areas of the taluk. However, if there are any non-municipal census towns and areas which have been identified as outgrowths of statutory towns within the jurisdiction of the taluk, then such towns and outgrowths are also regarded as lying within the jurisdiction of the concerned C.D.Block. The PCA particulars relating to such units are presented under the concerned C.D.Blocks against the urban category and are repeated again at the end under the caption 'District Urban'.

In the case of an urban agglomeration, the aggregate figures obtained by the addition of the data relating to the constituent towns and outgrowths thereof if any are presented against its name. Thereafter, the data for the constituent towns starting from the core town including the location code, are presented in a continuous sequence. In case a town has outgrowths (which are not towns in their own right) in the first line the aggregates relating to the core town as well as its outgrowths are given and this is then followed by the details relating to the core town and the outgrowths separately. Each outgrowth is treated at par with a municipal ward or division while presenting the ward-wise PCA for towns.

3. Brief note on Census concepts :

Census taking is a massive operation carried out in a short span of time with the active participation of a very large number of census enumerators. The reference moment for the 1991 census count is the sunrise of March 1, 1991. However, the enumeration of the population was spread over a period of 20 days from 9-2-1991 to 28-2-1991 followed by a revisional round from 1-3-1991 to 5-3-1991 for updating the population

count with reference to the sunrise on March 1, 1991. The questionnaires canvassed by the enumerators, namely the Household Schedule and the Individual Slip are brief in their wordings and the concepts used for purposes of the 1991 Census Operations and the manner in which the schedules are to be filled in have been explained in a booklet entitled Instructions to Enumerators for filling up the Household Schedule and the Individual Slip. Some of the important concepts and the relevant explanations are indicated in the following paragraphs.

(i) **Urban areas :-** The definition adopted in 1961 and adhered to in 1971 as well as in 1981 (though with a slight modification regarding the classification of fishing and forestry) has been retained for the 1991 census also. According to this definition the urban areas include :

- i) all places with a Municipality, Corporation, Cantonment Board or Notified Town Area Committees, etc.
- ii) all other places which satisfy the following criteria :
 - a) a minimum population of 5,000
 - b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits and
 - c) a density of population of at least 400 per square kilometre (1000 per square mile)
 - d) all places which, though not satisfying the above criteria, had pronounced urban characteristics.

(ii) **Urban Agglomeration:** This concept, which replaced the concept of 'town-group' in 1971, has been retained for the 1991 census. It has been observed that very often railway colonies, university campuses, port areas, military camps and large residential colonies etc., come up quite adjacent to, but situated outside the statutory limits of cities and towns. Such areas may not by themselves qualify to be treated as towns. But if they form a continuous spread with the town they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit called "urban

agglomeration". An urban agglomeration may consist of :

- a) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages);
- b) One town with similar outgrowths or two or more adjoining towns with their outgrowths as in (a) ; or
- c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Geographical contiguity with the statutory limits of the core town is the main factor in determining whether or not a nearby satellite town or an outgrowth is to be included in the urban agglomeration. This is purely a statistical concept and for carrying out the actual census, the administrative jurisdictions of the city or the towns concerned as well as of the outgrowths have been kept quite intact. The data are presented for the urban agglomeration as a whole and also severally for each of the constituent units.

(iii) **Rural areas - i.e., villages :** Areas which are not classified as 'urban' according to the definition given above constitute the rural areas. The basic unit for rural areas is the revenue village which has definite surveyed boundaries. In the case of unsurveyed villages, the boundaries as determined by the local usage have been adopted. The revenue village may consist of a single nucleated settlement or comprise of several settlements or clusters of houses located at several places within the territorial limits of the village or the village may not be having any human settlements at all (i.e., it may be totally uninhabited). The census village and the revenue village are identical in the matter of jurisdiction. However, there are a few exceptions to this general rule:

- 1) When the main settlement of the village with or without the surrounding open lands is constituted into an urban area, the remaining tracts of the revenue village are together treated as a separate unit for purposes of census i.e.,

the truncated portion itself is considered as an independent revenue village.

- 2) When outlying portions of certain revenue villages are incorporated into the limits of urban areas by a Government Notification such areas, whether populated or not, are excluded from the revenue village concerned and the village boundaries are redefined for census purposes.
- 3) Revenue villages which are completely incorporated in the limits of urban areas or else, are submerged completely under reservoir projects but are still retained in the jurisdictional lists of the Survey and Settlement authorities pending a resurvey and such other procedures, are taken note of as revenue villages but are omitted for census purposes i.e., these are not treated as census villages. Similarly, entire revenue villages, which have been identified as outgrowths of urban areas for purposes of 1991 census are treated not as census villages but as urban areas. The names of such villages, if any, in a Taluk/C.D.Block are indicated in a fly leaf.
- 4) If there are forest areas that do not form part of any of the revenue villages then such areas are identified clearly and the smallest administrative unit into which such forest areas are divided (eg.Forest Beat) is reckoned as the census village. A Forest Range may consist of several such census villages. (In Karnataka this phenomenon is noticeable only in Kollegal Taluk of Mysore District).

(iv) **Census Enumeration Block :** The smallest unit adopted for census taking is the Census Enumeration Block. Generally, the towns and cities are divided into wards or divisions and, wherever such units exist, their distinctive identities have been maintained. The geographical area comprised in each such ward or division or, the town in its entirety, is constituted into several blocks in such a way that every bit of land specifically stands included in one or the other enumeration block and also that there is no over-lapping of areas. In the urban areas, the Census Enumeration Blocks are constituted in such a way that each such Block contains about 120 households covering a population of about 600 persons. However, in view of the condition that

each block should have clear-cut boundaries easily recognisable on the field, blocks which are either larger or smaller than the norm have also been constituted. In the case of non-municipal towns, if the town boundaries are not specifically notified, the jurisdiction of the entire revenue village concerned is regarded as the jurisdiction of the town as well. In the case of towns which are under the administration of Mandal Panchayats, the Panchayat jurisdiction need not necessarily be identical with the jurisdiction of the non-municipal census town.

In the case of villages, depending upon the population data based on the Houselisting Operations carried out during 1990, each village has been constituted into one or more number of Census Enumeration Blocks. The work-load norm for the rural areas is 150 households covering an approximate population of 750 persons. However, numerous Census Enumeration Blocks with below-norm population have been constituted and a single enumerator has quite often been entrusted with the enumeration work in 2 or more contiguous blocks so as to ensure that the aggregate population is quite close to the norm. Further, in each village care has been taken to ensure that no bit of land belonging to that village is left out of consideration while constituting the Blocks. Each hamlet or island, if any, found within the jurisdiction of the village - irrespective of its population size - has been constituted into a separate Block in order to maintain its geographical identity. Further, even the villages known to be uninhabited at the time of houselisting operations have been constituted into separate blocks. In other words, a complete coverage of the territorial jurisdiction of each and every village has been ensured.

(v) **Location Code Number** : Every State in the Country, every District in the State, every Taluk or Town in the District, every C.D. Block (or its equivalent) in the District, every village in the taluk and every ward or division in the city or town and every enumeration block in the village or town is assigned a number in a particular order for carrying out the census enumeration. When these numbers are written side by side in the same order, starting from the State and separated by an oblique mark,

the identity of any particular census enumeration block can be known quite easily. The numbers assigned are in Arabic numerals, except in the case of towns in which case Roman numerals have been adopted. For assigning the location code numbers the States in the Country, the Districts in the State, the Towns in the District and the Taluks/C.D.Blocks in the District are arranged in the alphabetical order of their names. The villages in a taluk are organised into revenue circles or hoblis for administrative purposes and each such unit will have a headquarter town or village. The identity of such units is maintained while assigning the location code numbers. Starting from the circle of which the Taluk Headquarters happens to be the Circle headquarters as well, the villages in its jurisdiction are serially numbered by proceeding in a clockwise direction or in a serpentine manner starting from the north-west corner. After exhausting all the villages in that circle, the villages of the adjacent circle are assigned numbers in the same manner. The numbering of villages run continuously for the Taluk through the different Circles or Hoblis.

The entire set of the 1991 census data relating to the village directory and the village/urban ward-wise PCA has been computerised. For this purpose a separate code structure has been developed. The computer codes assigned to the villages in each Taluk or C.D.Block are indicated in the alphabetical list of villages along with the corresponding location code numbers assigned for enumeration purposes. So also particulars about the codes assigned to towns are indicated in the alphabetical list of towns which precedes the presentation of the PCA statements in respect of the urban areas of the district.

(vi) **Building** : A building is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, worksheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

(vii) **Census House** : A 'census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

(viii) **Household** : A 'household' is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households having unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, *ashramas* etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as a 'household'. If a group of persons who are unrelated to each other live in a census house but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person would be treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen. There may be a household which does not have a house to live in and may temporarily dwell on the roadside pavement, in hume pipes, temples, *mantaps*, platforms etc., or move about from place to place resting underneath shade-bearing trees, pavements and verandahs of public or private buildings. Such households, referred to as 'Houseless Households' for census purposes, were enumerated on the night of February 28, 1991.

ix) Criteria for enumeration of a person in a particular household :

- 1) All those who normally stay and are present in that household during the entire period of enumeration i.e., from February 9 to February 28, 1991 (both days inclusive);
- 2) All those who are known to be normally residing and had actually stayed during a part of the enumeration period (February 9 - 28, 1991) but are not present at the time of the enumerator's visit ;

3) Also those who are known to be normally residing and are not present at the time of the enumerator's visit but are expected to return before February 28, 1991 and

4) Visitors who are present in the household censused and are away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the household in which they are actually found during the enumeration period provided they have not been enumerated elsewhere.

(x) **Literate** : A person who can both read and write with understanding in any language is 'literate'. A person who can merely read but cannot write, is not 'literate'. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 6 years or less are treated as illiterate.

(xi) **Workers and Non-workers** : For census purposes 'work' is defined as 'participation in any economically productive activity'. Such participation may be physical or mental in nature and would involve not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise. The reference period for determining whether a person is a worker or a non-worker is the year i.e., the 365 days, preceding the date of enumeration. The criterion is liberal and, even a person who has participated in the production of goods and services for a very brief period is entitled to be categorised as a worker. Depending upon the nature of his or her activity during the reference period, every person enumerated at the census is classified as either a worker or a non-worker.

Among 'workers' however there are two categories:

Main Workers : Those who have worked for a major part of the year i.e., for 183 days or more (6 months or more) during the reference period even though this may be in broken spells and in different occupations.

Marginal Workers : Those who have not worked for a major part of the year under reference i.e., those who have worked for less than six months (i.e., for less than 183 days) during the entire reference period.

In view of the past experience that women are often classified as non-workers because of non-reporting of their work or as those who have not worked for a major part of the year, special efforts have been made at the 1991 census for eliciting accurate information by asking probing questions.

In respect of main workers as also marginal workers, further details on the sector of economy in which they worked, the actual nature of work done by them, their employment status (i.e., employer, employee, unpaid family worker or own account single worker) have been gathered at the census.

Important terms such as cultivators, agricultural labourers and household industry are explained below.

a) **Cultivators:** For purposes of census, a person is working as a cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation as well. A person who has given out his or her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct the cultivation of land, will not be treated as 'cultivator'. Similarly, a person working in another person's land for wages in cash or kind or a combination of both will not be treated as 'cultivator'.

Cultivation involves ploughing, sowing and harvesting. For certain reasons, the growing of certain crops is not considered as cultivation and a person engaged in growing of such crops is not regarded as a cultivator. A person can be classified as cultivator or not, *only on the basis of the crops grown*. The growing of the following crops is considered as cultivation.

1. Cereal and Millet crops : Paddy, wheat, jowar, bajra, maize, ragi, barley, etc.
2. Pulses : Arhar, gram, kesari, moong, masur, urd, etc.
3. Fibre crops : Raw cotton, jute, mesta, sunhemp and kindred crops.
4. Oil Seeds : Sesamum, ground-nut, rape seed, mustard, linseed, sunflower, castor, etc.
5. Cash crop : Sugarcane

The growing of the following crops is *not considered* as cultivation :

1. Plantation crops : Tea, coffee, rubber, tobacco, pepper, cardamom, etc.
2. Edible nuts (other than groundnut) : Walnut, almond, cashewnut, etc.
3. Fruits : Bananas, apples, grapes, mangoes, oranges etc.
4. Coconut
5. Ganja, cinchona, opium and medicinal plants.
6. Betel nuts (areca)
7. Flowers
8. Roots and tubers, chillies and spices
9. Vegetables
10. Other crops not specifically included under cultivation.

b) **Agricultural Labourer :** A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation. The agricultural labourer has no right of lease or contract on the land on which he or she works.

c) **Household Industry :** Household Industry is defined as an industry conducted by the head of the household himself or herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in the case of urban areas. The larger proportion of workers in a household industry would consist of members of the household including the head. The industry

should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. The goods produced should not be exclusively for consumption by the household itself but should be wholly or partly for sale.

d) **Other Workers** : All workers, i.e., those who have been engaged in some economic activity during the reference period of last one year, who are not Cultivators or Agricultural Labourers or workers in Household Industry were categorised as 'Other Workers' (OW) at the time of census enumeration and further details about the nature of industry, trade or service in which they were engaged were gathered by the enumerators. On the basis of this descriptive information, at the tabulation stage, each such worker has been further categorised as belonging to one or the other of the following Industrial Categories based on Revised National Industrial Classification - 1987.

III Workers in livestock, forestry, fishing, hunting, plantations, orchards and allied activities;

IV Workers in mining and quarrying activities;

V(b) Workers in manufacturing, processing, servicing and repairs which are carried on as other than household industry;

VI Workers in construction;

VII Workers in trade and commerce;

VIII Workers in transport, storage and communications, and

IX Workers in other services.

(xii) **Non-workers** : All those who have not at all participated in any economic activity during the reference period of one year preceding the date of enumeration are classified as non-workers.

Depending upon the manner in which such non-workers engaged themselves for most of the time during the reference period of one year they are classified into one or the other of the following six categories at the time of census enumeration itself. However, the Primary Census Abstract presented in this volume does not furnish details

according to the categories of non-workers but indicates the total number of non-workers by sex.

a) **Household duties** : This covers all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year.

b) **Students** : This will cover all full-time students including children attending school.

c) **Dependents** : This category includes all dependents such as infants, children not attending school and permanently disabled from work because of illness or old age. Dependents will include even able bodied persons who cannot be categorised in any other category of non-workers but are dependent on others.

d) **Retired Persons or Rentiers** : A person who has retired from service and is doing no other work i.e., not employed again in some full time work or not engaged in some other work such as cultivation, business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he or she does not have to work, will come under this category.

e) **Beggars** : This will cover beggars, vagrants or cases such as persons without indication or source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

f) **Inmates of Institutions** : This will cover convicts in jails or inmates of a penal, mental or charitable institution even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. But an undertrial prisoner enumerated in a jail would be recorded for the work he or she was doing before he or she was apprehended. Similarly, a person temporarily in a hospital or similar institutions would be recorded for the kind of work he or she was doing before he or she was admitted into the hospital or institution. But, for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work would not be taken into consideration. A person will be considered as 'Long-term' inmate if he or she is in such an institution for 6 months or more.

4. Brief History of the District * :

In conformity with the general practice, this district too is named after its headquarter town, namely Bangalore, which incidentally happens to be the premier city of the State and its headquarters as well. The name 'Bangalore' is the anglicised form of *Bengaluru*, which, according to popular belief, is derived from *Bangalu* - itself a corrupt form of the word *benda kahu* (cooked beans) and *uru*, meaning a town. Tradition associates the Hoysala King Vira Ballala with the origin of this name and recounts how he got separated from his attendants during one of his hunting expeditions in this region, lost his way and after hours of wandering, reached the hut of an old woman at night and sought for the much needed food and shelter. This humble woman, it is said, offered cooked beans, which the king gladly ate, and made up a bed for him also. This episode, in a way, brought glory to the place and, the settlement began to develop further in view of the royal patronage. However, the founding of modern Bangalore is attributed to Kempe Gauda, a scion of the Yelahanka line of chiefs, who finally established himself at Magadi. He founded the town of Bangalore in 1537 A.D. and he got erected four watch-towers at the four cardinal points predicting that in course of time the town would extend upto those points and that a growth beyond those limits would spell a disaster for the town. The construction of Gavi Gangadhareshvara cave temple, Dodda Basavanna temple and also of Kempambudi tank are attributed to this chief. Among the places included in the district there are several others which are much more ancient than Bangalore proper and of such places Nandagudi of Hoskote taluk and Mankunda of Channapatna taluk deserve a special mention in view of the ancient remains discovered therein and the historical legends associated therewith.

Nandagudi, is said to have been the capital of *Uttunga Bhuja*, whose nephews, the Nanda princes, who were imprisoned by him secured their release and seized the kingdom. This account exhibits a close resemblance to that connected with the rise

of the Kakatiyas. This family is deduced from the Pandava in general and the line from Janamejaya to Kshemaka and his two sons. Their sons, Vishnuvardhana and Uttunga Bhuja did not agree with each other and the latter left Upper India and settled to the south of Godavari. His son, Nanda, founded Nandagiri. He married a Chola princess from whom he begot a son named Vijayapala, who later on founded the city of Mankunda or Makunda. History assigns the date of about 400 A.D. to Vijayapala, the founder of Mankunda.

Historically, the earliest dynasty which established its sway over this part of the country including Bangalore district is that of the Gangas. In about the second century A.D., the Gangas established themselves at Kolar (a place which is hardly at a distance of 75 km from Bangalore City) from which they took the title Kuvalalapuravaradhisvara. The territory comprised in Bangalore district formed part of Gangavadi ninety-six-thousand and Honganur of Channapatna taluk was the chief town of a sub-division, called Chikkagangavadi, which occupied the Shimsha valley. During the seventh century, Makunda was a place of great importance and was the royal residence of Bhuvikrama and also of Sivamara. The earliest Ganga grant found in this district is dated in 430 A.D. and relates to King Avinita. In the eighth century, Shripurusha made Manyapura (Manne of Nelamangala taluk) his royal residence. During the reign of Satyavakya II, in about 870 A.D., a Nagattara chief is said to have fixed sluices to two tanks at Agara (near Bangalore East) and in about 890 A.D., Ereyappa who killed Nolamba King Mahendra and earned the title Mahendrantaka, is referred to as ruling over the country. Obviously, though the Gangas were reigning supreme, certain parts of this district, especially in the east, were held by the Pallavas and the Nalambas for varying periods of time.

Inscriptions belonging to the reign of Rajendra Chola and Kulottunga Chola II discovered in different parts of this district amply testify to the fact that Bangalore district too was annexed by the Cholas who overran the Gangas and established their

* The Bangalore district formed recently, has no history of its own, however for the purpose of this volume history of erstwhile Bangalore district has been presented here.

unquestioned supremacy in this part of the country by early eleventh century. After their conquests, among other things, the Cholas renamed Malurpatna of Channapatna taluk as Nikarili-Cholapuram and the area around Manne of Nelamangala taluk as Vikrama Chola-mandalam. Magadi town is said to have been founded by one of the Chola kings and the renowned king Cholaganga was born in Hejjaji-Twelve of Dodballapur taluk. The next important dynasty to hold sway over the district is that of the Hoysalas. Inscriptions of the Hoysala Kings, including those belonging to Vira Ballala (1172 to 1219 A.D.) are found all over the district. Shantala Devi, the queen of King Vishnuvardhana, it is said, breathed her last at Shivaganga of Nelamangala Taluk. When the Hoysala Kingdom was divided between the brothers Narasimha III and Ramanatha, the northern parts of Bangalore district came to be included in the possessions of Ramanatha who used to hold his court in Kundana of Devanhalli taluk. Honganur of Channapatna taluk was the provincial capital and the residence of a Hoysala governor. Yelahanka and its neighbourhood have yielded several inscriptions relating to the last days of the Hoysala rule and the reign of Ballala III. Shortly after the fall of Hoysala rule, Bangalore district too became a part and parcel of the great Vijayanagara empire. An inscription discovered in Magadi taluk is dated in 1368 A.D. and belongs to the reign of Bukka I. It records the reconciliation effected by Bukka between the Jains and Vaishnavas of his kingdom and thus indicates that Bangalore district too formed part of his empire. Under the patronage of the Vijayanagara sovereigns, as in other parts of the empire, in Bangalore district too, local rulers flourished and attained glorious positions. Avati Nad Prabhus have an unique place in the modern annals of Bangalore district. The following story is current about the origin of this line of chiefs.

About the end of the 14th century, a party of travellers consisting of seven farmers and their families halted at the foot of Ramasvani-betta to the east of Nandi Hill. They were of Telugu origin. They worshipped Bairadeva and had the strange custom of amputating the ring and little fingers of the right hand of thier daughters before marriage. The leader of this group was Rana Baire Gauda who had been forced to abandon his home at Alur near Conjeevaram in order to save his daughter

from a powerful suitor. On the night of their encampment, 'Rana Baire Gauda was directed in a dream to settle in that neighbourhood and in accordance thereof, huts were built and the village Ahuti (now called Avati) came to be established. Sometime later, they resolved to separate and while Rana Baire Gauda remained at Avati, his son moved out and founded Devanhalli, Dodballapur and Chikballapur. Sanna Baire Gauda went to Sugatur and later became the chief of Kolar and Punganur and also the founder of Hoskote, and Jaya Gauda established himself at Yelahanka. The destination of the other three is not known.

Jaya Gauda, who ruled for 15 years, acquired the title Yelahanka Nadu Prabhu (Lord of Yelahanka-nad) and was succeeded by his son Gidde Gauda. It is only after the goddess, Kempamma, the consort of Baire Deva, was appeased by prayers and austerities that this Gidde Gauda was rewarded with a son whom he named Kempa Nanje Gauda. This chief governed the territory with benevolence for about 70 years (1443-1513 A.D.). His son Kempe Gauda distinguished himself as the most illustrious ruler of the family. In 1537, he founded Bangalore at its present location, duly fortified it and made it his capital. In appreciation of his good deeds, zeal and devotion to the Vijayanagara throne, King Achuta Raya granted him the right to administer a territory of twelve hoblis around Bangalore which together yielded a revenue of 30,000 pagodas. Kempe Gauda cherished a greater ambition. Not being content with the feudal honours which he had achieved, Kempe Gauda established a mint, issued Baire Deva coins tried to appropriate the prerogatives of royalty for himself. It was at this juncture that his patron Achuta Raya died and Sadashiva Raya ascended the throne under the guardianship of Rama Raya. Sensing the danger posed by Kempe Gauda, Rama Raya summoned him to Vijayanagara court in a routine manner. On reaching the court, Kempe Gauda was seized and cast into a prison to suffer for his misdemeanours. Kempe Gauda secured his release and reinstatement after he suffered imprisonment for 5 years and also paid a heavy fine. Five years later, he was succeeded by Immadi Kempe Gauda - the chief who is known to have built a large number of tanks in various parts of the district and also the temple of Someshvara at Ulsoor and at Magadi. He extended his territory westwards and took over Sawandurga as well as

Magadi. While the chiefs belonging to the main line of the Avati family flourished in the immediate neighbourhood of Bangalore, the chiefs of Devanhalli and Doddballapur branches too administered the territories assigned to them from time to time, in what may be termed as a mediocre manner. The Sugatur Chiefs usually had the name Tamme Gauda and thier possessions included part of the present Kolar district. One of these chiefs founded the town of Hoskote and extended his territory from Anekal to Punganur. He earned the title Chikka Raya from the Vijayanagara King in recognition of the able manner in which he repelled the aggressors. The western parts of the district were, during this period, under the control of Jagadeva Raya who had his capital at Channapatna and administered a large territory. Chamaraja Wodeyar annexed Channapatna and its neighbourhood in about 1630 A.D.

In 1638 A.D. Randulla Khan, the Bijapur general captured Bangalore, forced Kempe Gauda to retire to Sawandurga and made Bangalore his chief residence for a brief period. After his return to Bijapur, Shahji was appointed governor of the southern Carnatic districts subdued by the Bijapur forces. Bangalore, Hoskote, Doddballapur, Kolar and Sira were granted as a jagir to Shahji and he too stayed at Bangalore for sometime and then shifted his residence to Doddballapur and Kolar. On the death of Shahji in 1664 A.D. the administration of the Jagir devolved on his eldest son Venkoji. Later, with a view to establish his claims over his parental estate, Shivaji overran these territories in about 1677. Thereupon the brothers came to an amicable settlement according to which Bangalore and its neighbourhood remained in the possession of Venkoji. In the meantime, with their capital at Shrirangapattana, the Wodeyars of Mysore had established themselves as an important and rising power in the south. In 1654 A.D. Kanthirava Narasa Raja Wodeyar attacked and defeated Kempe Gauda of Magadi and forced the latter to pay a heavy contribution. A couple of decades later, Bangalore itself was annexed to Mysore under the following circumstances. Shivaji died in 1680 A.D. and by 1687 Venkoji, who had established himself on the throne of Tanjore, found his distance dominion of Bangalore to be an expensive possession. Therefore he wanted to sell it away to the highest bidder, namely Chikka Deva Raja Wodeyar of Mysore for Rupees three lakhs. The latter sent a detachment

to occupy the estate and pay the money. But, at this stage the negotiations became protracted and became a matter of notoriety. Hari Raja, the Maratha Commander-in -chief at Ginjee, and Aurangzeb who had just raised the siege of Golconda simultaneously turned their attention to the transactions pertaining to Bangalore and both of them sent a detachment each. Khasim Khan, the general of Aurangzeb, arrived first and occupied the place with relative ease. The detachment of Hari Raja, finding itself forestalled, marched back to the base. Then, Khasim Khan accepted the large sum of money and handed over the possession of Bangalore which thenceforth became a part of Mysore Kingdom.

According to an inscription it was in the year 1695 that the Venkateshvara temple near the fort of Bangalore was erected by Chikka Deva Raja Wodeyar and endowed by his son, Kanthirava Narasa Raja. In 1689, Khasim Khan captured Doddballapur. Two years later, in 1691, Doddballapur came to be bestowed upon Sheik Abdullah Faruk - a descendant of one of the courtiers at Delhi. In 1728, Deva Raja, the Dalavayi of Dodda Krishna Raja Wodeyar, attacked Magadi and forced Kempe Gauda to surrender his territories which included the then impregnable Sawandurga hill-fort and the wealth accumulated therein over a period of nearly two hundred years. Kempe Gauda was taken to Shrirangapattana as a State prisoner. In 1749, Devanhalli was annexed to Mysore Kingdom. It was during the siege of Devanhalli that Haidar Ali distinguished himself as a volunteer horseman. In 1758, the fort and the neighbourhood of Bangalore were conferred on Haidar Ali as a Jagir in recognition of his services to the State. In 1761, Haidar Ali secured Hoskote and Doddballapur, the Jagir of Abbas Kuli Khan, from Basalat Jang. It was during this year that Haidar Ali virtually took over the administration of the entire Mysore kingdom of which his own personal estate in and around Bangalore was only a small part. In 1791, Lord Cornwallis captured Bangalore from Tipu Sultan on behalf of the British. Soon Devanhalli and other places were also annexed and the hill-forts like Sawandurga, Ramagiri, Sivanagiri etc., too were captured. On the death of Tipu Sultan in 1799, Bangalore district came to be included in the treaty of Shrirangapattana as the territory of the Wodeyars of Mysore. Under the restored government which followed, the districts of Bangalore and Kolar

constituted the Bangalore Faujdari, which was afterwards called the Bangalore Division. This position continued until the formation of Nandidurg Division in 1863 whereafter the name Bangalore Division came to be confined to the area included in Bangalore district only. During the past hundred years and more the boundaries of the district have remained almost unchanged, though along with the other parts of the State, this district too has witnessed several administrative and political changes. The district now consists of three taluks which has one revenue sub-division for administrative purposes. The erstwhile composite Bangalore taluk was constituted into two separate units named Bangalore North and Bangalore South for the administrative convenience.

5. Location and Physical Aspects :

Bangalore district is located in the south-eastern corner of Karnataka State. Spanning a geographical area of 2190 square kilometres, the district lies stretched between the latitudinal parallels of 12 degree 35 minutes North and 13 degree 15 minutes North on the one hand and the longitudinal parallels of 77 degree 05 minutes East and 78 degree East on the other. The outline of the district roughly resembles a circle. The maximum distance from the southern tip to the northern tip is about 135 km and that between the western and eastern tips is about 95 km. The district lies in the southern maidan region of the State and is by and large an open country which is lacking in natural barriers. Bangalore district is entirely bounded by Bangalore Rural district on all the sides except by Dharmapuri district of Tamil Nadu on the east and south-east.

There are no major rivers in the district. Arkavati, a tributary of Cauvery, flows in the district for a small distance in Bangalore North Taluk. Dakshina Pinakini touches the borders of the district to the north-east of Anekal taluk, Vrishabhavati, a tributary of Arkavati, takes its birth in Bangalore City (Basavanagudi) and flows in the district before joining the Arkavati near Muduvadidurga, Suvarnamukhi from Anekal taluk also joins Vrishabhavati before it joins Arkavati. Another Stream Basavanahole which originates beyond Mathyalamadu Falls passes through Anekal taluk and meets Arkavati near Kanakapura. Bangalore district is noted for its tanks, both large and small, which have all along providing water for drinking and for irrigation purposes as well. Special

references can be made about Chamarajendra Reservoir built across Arkavati near Tippagondanahalli, which partly caters to drinking water needs of Bangalore City. Another biggest tank in the district is Hesaraghatta tank with a catchment area of 490 sq.km. also caters to the drinking water needs of the Bangalore City. It may incidentally mentioned that a few ancient tanks of a considerable size found in and around Bangalore City have been breached in recent years.

Bangalore district forms part of the Deccan plateau and the rock formations here belong to the category of 'Peninsular Gneiss'. The predominant type of rock here is a light to dark-grey or whitish biotite granitic gneiss which varies in texture, structure and appearance from place to place. The darker minerals are generally arranged with a simple parallel orientation. But in several places there are the streaky, curly and banded types of rock formations also. The district is poor in mineral deposits of commercial importance. Clay, quartz, feldspar and ornamental and building stones are the only minerals of economic value that are found to occur at a few places in small quantities. Potter's clay is however available in plenty and this is mainly obtained from the tank silts. Kaolin of better grade which is suitable for fire-bricks is found near Sulikunte, Kodagi, Kottur, Muttanallur and Ramanaikanahalli villages. Deposits of quartz are found on hillock near Kengeri, Peenya, Laggere and near Chikkabanavar in the district. Feldspar bearing pegmatites have been noted near Karithimmanahalli in Bangalore-Mysore Road and in quarries on Bangalore-Kanakapura road and Bangalore-Mysore railway line near Kempapura Agrahara and Shettihalli near Chikkabanavar.

The topographical and climatic features of the district are subject to small regional variations and are, by and large, favourable for the growth of a variety of plants, shrubs and trees. The last few decades have witnessed an almost unabated denudation of forests due to over-exploitation and the simultaneous expansion of agriculture and industry. The forest cover in the district is very sparse hence a very few species of trees are found in the forests. Among the timber yielding species, a mention may be made of honge, tamarind, nerale, jack fruit, acacias, ippe and eucalyptus. Trees of a lesser order which are useful as firewood and bamboo are also found in almost all the forest areas. In

addition, there are casuarina plantations and eucalyptus plantations and quite a few farmers have found it more profitable to raise such plantations than crops in agricultural fields with poor soils. These trees yield poles which are required by construction workers and also provide firewood which is in great demand. Since the forest cover is quite sparse and most of the forest areas are small and are surrounded by agricultural lands, very few species of wild animals are found in the forests of the district. The larger game consisting mainly of cheetah or panther and the wild dog and animals such as the porcupine, jackal, wild cat etc., are mostly confined to the forests of Anekal taluk. Occasionally herds of elephants make an appearance in the forests and villages of Anekal taluk. It may be incidentally mentioned that the forest area near Bannerughatta of Anekal taluk has recently been constituted into a National Park and a sanctuary for wild life.

The climate of Bangalore district is salubrious and very agreeable. It is devoid of extremes. However within the district itself one may find Bangalore and its neighbourhood somewhat cooler during the winter as well as the rainy season. This feature is mainly attributable to its elevation with reference to the mean sea level and also its sylvan surroundings. The atmosphere is neither very humid nor very dry and the mean values of relative humidity in the wettest and driest months are found to be 83 and 63 respectively. The year is usually divided into three seasons, namely summer, rainy season and the winter. The latter half of the rainy season in fact corresponds to the autumn season. During the summer months of March, April and May both the days and nights are quite warm. Generally April is the hottest month and even on the hottest day the maximum temperature rarely touches 37 degree celsius. Towards the end of April and during May the oppressive heat is often relieved by the sharp showers, that descend during the evenings, accompanied by thunder storms. The rainy season starts in June with the onset of south-west monsoon and lingers on almost till the end of November. Occasionally there would be spells of cyclonic weather during the month of December as well. The months of December, January and February constitute the winter season and the period from mid-December to mid-January happens to be the coldest month of the year. Even on the coldest day, it may be noted,

the minimum temperature stays well above the 11 degree centigrade mark, though in a normal year it hovers around a much higher figure. It may be incidentally mentioned that this district is provided with four meteorological observatories and while one of these is located within Bangalore city the other three are situated at the airport, UAS Hebbal and IAF Station Yelahanka, in the outskirts of the city. The weather phenomenon recorded at these observatories are more or less applicable for the entire district.

The mean annual rainfall for Bangalore district is 859.6 mm. The precipitation in Bangalore city and its immediate neighbourhood is generally seen to be a little higher than the overall average for the district. The south-west as well as the north-east monsoon are both of equal importance, though the former lasts for a longer period and brings forth a relatively greater quantity of rainfall. Generally, September is the month with the heaviest rainfall and October ranks next to it. It is the rains which precipitate during this period that bring forth enough supplies to fill the innumerable tanks that are found scattered all over the district. By and large, the rainfall is evenly distributed from the agriculturists' point of view and is also quite dependable. Occasionally this district too has suffered from deficit and capricious rainfall conditions and the resultant phenomenon of crop failure. By and large the district enjoys comparatively good seasonal conditions.

6. Administrative Divisions and Jurisdictional Changes

The district is a well-known centre of administration in the State. As the state capital is located here, its administrative importance is paramount. The heads of provincial executive, legislative and judiciary function from here. The headquarters of the Bangalore Division is also located in the district. The headquarters for two districts viz. Bangalore Rural and Bangalore are located in Bangalore City. The district has three taluks viz., Anekal, Bangalore North and Bangalore South. The headquarters for two taluks viz., Bangalore North and Bangalore South are situated in Bangalore City Corporation. Bangalore City Corporation (MC) itself is spread over two taluks namely Bangalore North and Bangalore South.

The district of Bangalore was carved out by separating the Bangalore sub-division (with its two taluks of Bangalore North and Bangalore South) out of the old unified district during the decade 1981-91. Simultaneously, the taluk of Anekal was also made a part of the newly constituted Bangalore district. The total area comprised by the above three taluks namely Bangalore North, Bangalore South and Anekal was only 1497.2 sq.km at the 1981 census. The new Bangalore district comprising the above three taluks has a total area of 2190.0 sq.km

in 1991 census. At the time of creation of the district during 1981-91 the area of Bangalore North and Bangalore South taluks was made to increase from 387.2 sq.km to 799.2 sq.km and from 574.6 sq.km to 870.9 sq.km. respectively. The above increase was effected by transferring some villages from taluks which now form part of the Bangalore Rural district.

The talukwise changes in the number of villages between 1981 and 1991 are given in the Statement-1 below.

Statement showing the number of villages in each taluk of the district as per the 1991 census as also 1981 census and reasons for variations, if any, and the number of towns as per 1991 census.

Sl.No.	Taluk	Total No. of Villages according to the list finalised for		No. of Towns as per 1991 census list	Reasons for variation in the No. of Villages between 1981 and 1991 census
		1991 Census	1981 Census		
1	2	3	4	5	6
1.	Anekal	223	224	2	Village Dommasandra of 1981 census has now been considered as Census Town. Hence this village has not been shown in 1991 (Census) village list.
2.	Bangalore North	244#	138*	19	*52 villages from Jala hobli of Devanahalli and 73 villages from Dasanapura hobli of Nelamangala taluks respectively transferred as per Government Notification No.RD 35 IRD dated 21.7.1986 the names and the extent of area have been listed separately and given in Annexure-I to this statement. After taking into account these 125 villages the total no.of villages would be 263. There is a difference of 19 villages of which 17 villages have been deleted from the list of villages and classified as urban being the outgrowths of Bangalore Urban Agglomeration and two villages have been classified as Non-Municipal Census Towns.
3.	Bangalore South	261##	172		63 villages from Bidarahalli hobli of Hoskote taluk and 51 villages from Tavarekere hobli of Magadi taluk respectively transferred. The names of villages and the extent of areas has been listed separately and given in Annexure-I to this Statement. After taking into account, these 114 villages, the total number of villages in the taluk would be 172+114=286. There is a net difference of 25 villages. The reason for this difference is : (1) 21 villages (listed) have been deleted from the list as these villages has been classified as urban being the outgrowths of Bangalore Urban Agglomeration. (2) One village Kadgodu which is transferred from Hoskote has been treated as NMCT. (3) The following three villages Sonnathimmanahalli, Seegehalli and Basavanapura are included fully in III (NAC).

Note : # The total number of villages in the taluk after reconciliation with the Government Notification No.RD 35 IRD dated 21.7.1986 is 367, of which 244 villages have been listed in the village list. There is a difference of 123 villages. The details of which are furnished hereunder. (1) 62 villages are included in Bangalore City corporation (2) 45 villages forming parts of outgrowths in Bangalore City (3) 1 village fully

included in HMT i.e. Myakala Chinnenahalli (4) 15 villages classified as Non-Municipal census Towns for 1991 census. The names of the above villages are furnished as an Annexure-II to this Statement.

The total no.of revenue villages as per Government Notification No. RD 35 IRD 56 dated 21st July 1981 in the taluk after reconciliation would be 356 of which 261 villages have been listed in the list of villages. Hence there is a difference of 95 villages. The details are : (1) 49 villages are treated as urban being the outgrowths of Bangalore Urban Agglomeration (2) One village fully submerged under Chamarajanagar Reservoir Kutlu (3) 9 villages are fully included in BCC (4) 14 villages are included in HA Sanitary Board (5) 6 villages are in ITI Notified Area (NAC) (6) 8 villages forming parts of outgrowths in Bangalore City and BDA (7) 8 villages treated as Non-Municipal Census Town for 1991 census. The names of the above villages are furnished in Annexure-II.

As in other districts of the State, in this district also there exists a Zilla Parishad over taluk panchayats. The latter are co-terminus with the Community Development Blocks. As the break-up of area of each revenue village included within the limits of each constituent towns of Bangalore Urban Agglomeration are not readily available, the particulars of villages fully or partly included in the urban areas of the district has not been furnished.

ANNEXURE-I TO STATEMENT-1

LIST OF VILLAGES WITH TOTAL GEOGRAPHICAL AREA TRANSFERRED TO BANGALORE DISTRICT FROM FOUR TALUKS OF BANGALORE RURAL DISTRICT

I Villages transferred from Devanhalli taluk to Bangalore North taluk

Sl. No.	Name of the village	Total Geographical Area	Sl. No.	Name of the village	Total Geographical Area
1	Chikkajala	251.69	27	Chagalatti	342.77

ANNEXURE-II TO STATEMENT-I

Bangalore North Taluk - Reasons for variation

1) The following 17 villages have been deleted from the list of villages and classified as urban being the outgrowths of Bangalore Urban Agglomeration.

- | | |
|-----------------------|----------------------------|
| 1) Narasipura | 10) Shampura |
| 2) Singapura | 11) Nagasandra |
| 3) K.G.Bagalakunte | 12) Srigandadakaval |
| 4) Chikkabidaraakllu | 13) Viswanatha Nagenahalli |
| 5) Mallasandra | 14) Sajjepalya |
| 6) Hebbal Amanikere | 15) Malagallu |
| 7) Hennur | 16) Suggatta |
| 8) Hegganahalli | 17) Hunsamaranahalli |
| 9) Mallakadirenahalli | |

2) 2 villages viz., Nagavara and Kammagondahalli which was listed in 1981 village list has now been treated as NMCT. Hence deleted.

1 The following 45 villages of 1981 list are deleted from the 1991 census list and are classified as urban being the outgrowths of Bangalore Urban Agglomeration.

- | | |
|----------------------------|----------------------------|
| 1) Gangondanahalli | 24) Venkata |
| 2) Nagarabavi | 25) Vaderapura |
| 3) Mallathahalli | 26) Narasipura |
| 4) Poornapura | 27) Singapura |
| 5) Lottegollahalli | 28) K.G.Bagalakunte |
| 6) Nagashettihalli | 29) Chikkabidarakallu |
| 7) Bhupasandra | 30) Mallasandra |
| 8) Gurihodeyomaidana | 31) Hebbal Amanikere |
| 9) Doddebommasandra | 32) Hennur |
| 10) Ramachandrapura | 33) Hegganahalli |
| 11) Tindlu | 34) Mallakadirenahalli |
| 12) Kodigehalli | 35) Shampura |
| 13) Kodigehalli Plantation | 36) Nagasandra |
| 14) Kempapura | 37) Srigandadakaval |
| 15) Amruthahalli | 38) Guddadahalli |
| 16) Byatarayanapura | 39) Cholanayakanahalli |
| 17) Kothihosahalli | 40) Gerahalli |
| 18) Chokkasandra | 41) Viswanatha Nagenahalli |
| 19) Peenya Plantation | 42) Sajjepalya |
| 20) Yelahanka | 43) Malagallu |
| 21) Allalasangra | 44) Suggatta |
| 22) Shivanahalli | 45) Hunsamaranahalli |
| 23) Puttenahalli | |

II The following 15 villages are fully incorporated in Non-Municipal Census Town

- | | |
|-----------------------|-----------------------|
| 1) Byataguttepalya | 9) Kammagondahalli |
| 2) Dasarahalli | 10) Kaval Byrasandra |
| 3) Devarajeevanahalli | 11) Laggere |
| 4) Guddadahalli | 12) Lingarajapura |
| 5) Mebbal | 13) Nagavara |
| 6) Jalahalli | 14) Peenya |
| 7) Kacharakannahalli | 15) Saneguruvanahalli |
| 8) Kadugondanahalli | |

III Myakala Chinnenahalli fully incorporated in HMT Township.

IV The following 62 villages are fully incorporated in the limits of Bangalore City Corporation.

- | | |
|------------------------------------|--|
| 1) Jodikempapura | 32) Vialikaval |
| 2) Agrahara Dasarahalli | 33) Forest Research Institute |
| 3) Jedarahalli | 34) Ranganathapura |
| 4) Shivanahalli | 35) Rajamahar |
| 5) Kethamaranahalli | 36) Malenahalli |
| 6) Yeshwanthapura | 37) Upparahalli (Dandu) |
| 7) Thanniranahalli | 38) K.G.Byadarahalli |
| 8) Mathikere | 39) Byadarahalli (Sarkari) |
| 9) Chikmaranahalli | 40) Byadarahalli Railway |
| 10) Dyavasandra | 41) Byadarahalli Rudrabhoomi |
| 11) Gangenahalli | 42) Doddakunte Railway |
| 12) Matadahalli | 43) Doddakunte Rudrabhoomi |
| 13) Savar Lines | 44) Bangalore Civil and Military Station
(Bangalore Cantonment) |
| 14) Doddakunte | 45) Bilenahalli |
| 15) Binnamangala | 46) Ulsoor (Halasur) |
| 16) Dhokanahalli | 47) Sonnenahalli |
| 17) Sonnenahalli (Jodi Inam) | 48) Neelasandra |
| 18) Dommalur | 49) Kuppasandra |
| 19) Sunkenahalli | 50) Hakkithimmanahalli |
| 20) Gavipura | 51) Arekempnanahalli |
| 21) Mavalli | 52) Annapura |
| 22) Karethimmanahalli | 53) Doddabylakhane |
| 23) Bhogenahalli | 54) Sonnigehalli |
| 24) Guttahalli | 55) Agrahara Thimmasandra |
| 25) Hanumanthapura | 56) Gangannagudipalya |
| 26) Boragamuddenahalli | 57) Karanji Bisanahalli |
| 27) Bangalore City Kasaba | 58) Upparahalli |
| 28) Jakkasandra | 59) Siddapura |
| 29) Bangalore City Railway Station | 60) Lalbagh |
| 30) Water Works | 61) Kempambudikere |
| 31) Tata Institute | 62) Byatarayanapura |

Bangalore South - Reasons for variation

The following 21 villages are deleted from the list of villages and classified as urban being outgrowth of Bangalore Urban Agglomeration.

- | | |
|----------------------|----------------------|
| 1) Venkoji Rao Khane | 12) Channasandra |
| 2) Agara | 13) Nagadevanahalli |
| 3) Yellukunte | 14) Channappanahalli |
| 4) Singasandra | 15) Munekolal |
| 5) Hongasandra | 16) Kundalahalli |
| 6) Arakere | 17) Pattandur |
| 7) Hulimavu | 18) Battarahalli |
| 8) Sarakki kere | 19) Medahalli |
| 9) Puttenahalli | 20) Shinivagilu |
| 10) Yelachenahalli | 21) Shinivagilukere |
| 11) Bikasipura | |

2) Kadgod village treated as Non-Municipal Census Town.

3) The following three villages are fully included in ITI Notified Area Committee (NAC)

- 1) Sonnathimmanahalli
- 2) Seegehalli
- 3) Basavanapura

4) The following 49 villages of 1981 list are deleted from the 1991 list of villages and are classified as urban being outgrowths of Bangalore Urban Agglomeration.

- | | |
|----------------------------------|------------------------------------|
| 1) Binnamangala Manavarthe Kaval | 26) Kenchenahalli |
| 2) Jakkasandra | 27) Pattanagere |
| 3) Venkojirao Khane | 28) Halage Vaddarahalli |
| 4) Agara | 29) Channasandra |
| 5) Yellukunte | 30) Mylasandra |
| 6) Singasandra | 31) Chudenapura |

7. Brief Analysis of Data

(i) Area and Population

The total geographical area of Bangalore district as per the Survey of India is 2190.00 sq.km. However, the taluk area figures are those from the village records of the revenue department. Areawise, Bangalore South taluk is largest. All the taluks in the district are small-sized. Areawise Bangalore district itself is the smallest in the State. The total population of the district is 4,839,162. Most of the population of the district is concentrated in twin taluks of Bangalore North and Bangalore South in that order. In fact, more than average concentration of population in these two taluks led to the bifurcation of the parent district after 1981 census. In this way, though the newly created district is areawise one of the smallest districts in the State, it is at the same time the most populous one also. Not surprisingly, the district is having highest density of population in the State. It is 2,210 persons per sq.km for the entire district and 387 and 9,120 respectively for its rural and urban areas. The abnormally high density (2,210) in the district become apparent only when one compares it against the State figure of 235.

(ii) Rural-Urban Composition

The district has a population of about 5 million (4,839,162 persons to be precise) as per the 1991 census. It is predominantly urban. Towns in the district claim over 86 per cent of total population. This unusually high incidence of urban population is largely due to the reason that the district was created after the 1981 census from the old composite Bangalore district by taking the core urban chunks from the mother district. Against over 86 per cent of urban population in the district the ratio in the State is only about 31 per cent. In some quarters it is stated that Bangalore metropolis is reputed to be the fastest growing city in the world after Mexico City. The socio-economic forces unleashed during the old enterprising Mysore days and afterwards by such stalwarts as Raman and Vishveshvariah have put the district in the forefront not only in Karnataka but also in the country. The rapid stride in industrialisation and consequent urbanisation has ensured a high incidence of urban share in taluks. It is as high as 94.37 per cent in Bangalore North and 72.84 per cent in Bangalore

South. Only in Anekal taluk the share is short of the standard witnessed in the district and it is only 14.44 per cent. The distribution of the rural population and talukwise number of villages are set out in Table-1.

Table 1 : Population and Number of Villages, 1991

Sl. No.	Name of C.D.Block/ Taluk Rural	Population of Villages			No.of Villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7
1.	Anekal	189220	99639	89581	223	213
2.	Bangalore North	202273	106094	96179	244	231
3.	Bangalore South	278416	145624	132792	261	237
	District Rural	669909	351357	318552	728	681

There are only 681 inhabited villages in the district and Bangalore South taluk tops with the number of inhabited villages. Only about 14 per cent of the population of the district is rural. Most of it is concentrated in Bangalore South (41.56 per cent) and Bangalore North (30.19 per cent) taluks. Anekal shares only 28.25 per cent. Share of urban population is also lowest in Anekal taluk. Bangalore city alone shares 79.21 per cent of total urban population of the district. Its share in total district population is 68.24 per cent. The relevant details are set in Table-2.

* Includes population of Outgrowths.

The population of towns varies between a minimum of 2,675 persons in HMT Watch Factory Township and a maximum of 3,302,296 persons in Bangalore City Corporation. The average population of a town in the district comes to 126,341 persons. Bangalore obviously is a Class-I city having population of above one lakh. Out of 33 towns in the district 5 belong to Class-II (50,000-99,999) and they are Yelahanka, Kadugondanahalli, Devarajivanahalli, ITI Notified Area and HA Sanitary Board. As much as twelve towns namely, Hebbal, Banasavadi, Vijanapura, Nagavara, Anekal, Pinya, Saneguruvanahalli, Koramangala, Laggere, BEL Township, Kacharakanahalli and Dasarahalli fall in Class-III (20,000-49,999). Also there are nine towns in Class-IV (10,000-19,999) - Geddalahalli, Kaval Byrasandra, Jalahalli, HMT Township, Kammagondanahalli, Baiyyappanahalli, HAL Township, Lingarajapura and Byatarayanapura. Rest of the towns, except HMT Watch Factory Township with a population of less than 5,000, belong to Class-V (5,000-9,999) - Benniganahalli, Dommasandra, Kadgod, Mahadevapura and Byataguttepalya - in all five towns. Out of the above 33 towns only

Bangalore City Corporation, Anekal (TMC), Yelahanka (TMC), HA Sanitary Board (SB) and ITI Notified Area (NAC) are statutory towns.

(iii) Classification of new places or towns, declassification and/or merger of towns during the decade 1981-91

At the 1981 census, when the district was undivided there were 27 towns. But such has been the pace of urbanisation in the district that even after its bifurcation after 1981 census in the newly created district of Bangalore alone the number of towns has increased to 33 by the 1991 census. After the 1981 census there has been an increase in urbanisation because of the "outgrowths". During the decade 2 towns have been declassified and further 2 towns have been merged into another town, but there has been a net addition of 19 towns as set out in Table-3.

Table 3 : New Towns/Towns Declassified, Merged in 1991 Census

Particulars	Name of Town	Population
1	2	3
(a) Added	(i) Dommasandra	7001 (1991 Census)
	(ii) Dasarahalli*	43714 (1991 Census)
	(iii) Kacharakanahalli*	43360 (1991 Census)
	(iv) Laggere*	38031 (1991 Census)
	(v) Saneguruvanahalli*	33261 (1991 Census)
	(vi) Nagavara*	22154 (1991 Census)
	(vii) Pinya*	29054 (1991 Census)
	(viii) Kammagondanahalli	12179 (1991 Census)
	(ix) Kaval Byrasandra	10831 (1991 Census)
	(x) Geddalahalli	10261 (1991 Census)
	(xi) Byataguttepalya	8761 (1991 Census)
	(xii) Koramangala*	37961 (1991 Census)
	(xiii) Vijanapura	21856 (1991 Census)
	(xiv) Banasavadi*	21068 (1991 Census)
	(xv) Byatarayanapura (B.Narayanapura)	18054 (1991 Census)
	(xvi) Baiyyappanahalli* (Vimanapura)	14905 (1991 Census)
	(xvii) Mahadevapura	7924 (1991 Census)
	(xviii) Benniganahalli	5910 (1991 Census)
	(xix) Kadgod	7026 (1991 Census)
(b) Declassified	(i) Baiyyappanahalli Manavarthe Kaval @*	19955 (1981 Census)
	(ii) Kengeri @*	12950 (1981 Census)
(c) Wholly merged with other town	(i) Kadenahalli#	10515 (1981 Census)
	(ii) Krishnarajapura #*	18182 (1981 Census)

@ Though these two towns are declassified these are urban areas - as these two villages are treated as outgrowths of Bangalore Urban Agglomeration.

These two towns are merged in I.T.I Notified Area.

* Includes Outgrowths population.

Towns of Yelahanka and Kengeri were declassified first at the 1911 census. Yelahanka regained its position in the very first census thereafter, but Kengeri was treated as town only in 1981 census. Of the 19 new towns added Dasarahalli, Kacharakanahalli, Laggere, Saneguruvanahalli, Pinya, Kaval Byrasandra, Geddalahalli and Byataguttepalya were outgrowths of Bangalore City Corporation at the 1981 census falling in Bangalore North taluk. Similarly Koramangala and Banasavadi were outgrowths of the Bangalore City at the 1981 census situated in Bangalore South taluk. Towns of Vijanapura and Byatarayanapura (B.Narayanapura) were outgrowths of I.T.I. Notified Area at the 1981 census and located in Bangalore South taluk. At the 1981 census, towns of Baiyyappanahalli (Vimanapura) and Benniganahalli were outgrowths of now declassified towns of Baiyyappanahalli Manavarte Kaval which is situated in Bangalore South taluk. Mahadevapura was an outgrowth of H.A.Sanitary Board at the 1981 census and is located in Bangalore South taluk.

(iv) Decadal variation in population

In the old composite district of Bangalore, the decadal growth rate during the period 1971-81 had been 47.01 per cent. During the subsequent period of 1981-91 this rate was only 31.63 per cent for the old undivided district of 1981. The corresponding State level rates are lower than the above and are only 26.75 per cent and 21.12 per cent for the above two periods. Growth rates in both the undivided district and the State have slowed down and it can more significantly be seen in the case of the undivided district over the period from former decade to latter.

It may thus be concluded that the unprecedented rise of population in post-independence Bangalore has started decelerating from the period 1981-91. But the trend of rising population may continue for some more time before getting stabilized. The decadal change in the present Bangalore district in distribution of population over the the decade 1981-91 is given in Table-4.

Significant changes during the decade 1981-91 is the steep increase in urban population in all the three taluks of the district as against normal increase in rural population. As Bangalore North taluk had been saturated in respect of urbanisation by 1981 with nearly 94 per cent of its population was already urban, naturally during the ensuing decade of 1981-91 higher growth in urban population occurred in Bangalore South and Anekal taluks. As a result of this the share of urban population in these two taluks also went up. In Anekal the share rose from about 12 per cent to over 14 per cent and in Bangalore South from nearly 50 per cent to about 73 per cent. In the district as a whole the share of urban population increased from about 84 per cent to about 86 per cent in the span of ten years. It may be noted that while the decadal variation during 1981-91 for the rural population was of the order of about 20 per cent, it was more than double this increase in the case of urban population.

(v) Trends of Urbanisation

This district has a predominant place in India after independence. The district has contributed highest number of "outgrowths" since then. The share of urban population in the district in 1991 census

Table 4 : Decadal change in distribution of Population

Taluk	Population						Percentage decadal variation (1981-91)			Percentage of urban population	
	1981			1991							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1981	1991

* Includes the population of Bangalore (MC).

@ Adjusted Figures.

Table 5 : Percentage distribution of villages by population ranges, 1991

Taluk/C.D.Block	No. and Percentage of inhabited villages	No. and percentage of villages in each range (figures in paranthesis indicate percentage of villages in each range)					
		Less than 200	200 - 499	500 - 1999	2000 - 4999	5000 - 9999	10,000 & above
1	2	3	4	5	6	7	8
1. Anekal	213 (100.00)	26 (12.21)	51 (23.94)	122 (57.28)	11 (5.16)	3 (1.41)	-
2. Bangalore North	231 (100.00)	36 (15.58)	52 (22.51)	125 (54.11)	16 (6.93)	2 (0.87)	-
3. Bangalore South	237 (100.00)	19 (8.02)	45 (18.99)	137 (57.80)	29 (12.24)	7 (2.95)	-
District Rural	681 (100.00)	81 (11.90)	148 (21.73)	384 (56.39)	56 (8.22)	12 (1.76)	-

is about 86 per cent, one of the highest in the country. Out of three taluks in the district, in two taluks the share of urban population is well above 70 per cent. There are now in all 33 towns in the district in 1991. Even after the bifurcation of the old composite district after 1981 census this district has more number of towns in 1991 than the number of towns in 1981 in the old composite district. In short, the trends in urbanisation being witnessed in the district is unsurpassed not only in the State of Karnataka, but also in the whole country.

(vi) Population size of villages

In this predominantly urban district, there are 681 inhabited villages spread over 3 taluks. The average population of a village in Bangalore district as per 1991 census works out to 984 persons. Among taluks, in Anekal and Bangalore North the average population per village is 888 and 876 persons respectively which are below the district average of 984. Only in Bangalore South there is an average of 1175 persons per inhabited village, well above the district average. A distribution of the villages by population size-class is given in Table-5.

The share of small villages (with less than 500 inhabitants each), medium villages (with 500 to 1999 inhabitants each) and large villages (with a population of 2000 or more) is 33.63 per cent, 56.39 per cent 9.98 per cent respectively. The proportion of very small villages (less than 200) varies from 8.02 per cent in Bangalore South to 15.58 per cent in Bangalore North. Bangalore South taluk which has maximum persons (1175) per inhabited village naturally has the lowest share (8.02 per cent) of very small villages (less than 200). In Bangalore

district there is no village of 10,000 or more population. Large villages (with 2000-9999 population) are least in Anekal taluk followed by Bangalore North. In fact, the share of large villages in Bangalore South taluk (15.19 per cent) is even greater than the combined share (14.37 per cent) of such villages in the other two taluks of the district.

(vii) Density of population

The density of population in Bangalore district as per 1991 census is 2210 persons per square kilometre. This density figure of the district is more than nine times of the average density figure of Karnataka State, which is 235 persons per sq.km. The density in rural and urban areas of the district is 387 and 9121 respectively. The density figures for the rural and urban areas of the State are 166 and 3257 persons per sq.km. respectively. Bangalore district is obviously a densely populated district in the State. The distribution of villages by density range is given in Table-6.

Table 6 : Distribution of villages by density ranges

Range of Density (population per sq.km)	Total no. of villages in each range	Percentage of villages in each range
1	2	3
-10	8	1.17
11-20	8	1.17
21-50	13	1.91
51-100	22	3.23
101-200	101	14.83
201-300	166	24.38
301-500	186	27.32
501 and above	177	25.99
Not known	-	-
All Ranges	681	100.00

Villages having density range of 301-500 constitute single largest group followed by those having density range of 501 and above and those having density range of 201-300 population per sq.km. These three density ranges together account for 77.69 per cent of the populated villages of the district. Villages with density range of 101-200 persons per sq.km. form a significant share of about 15 per cent and those villages with density upto 100 persons per sq.km. are only 7.48 per cent.

(viii) Sex Ratio

Against 2,542,950 males in the district in 1991 census there are 2,296,212 females in the total population of 4,839,162. The sex ratio for the district works out to 903 females per 1000 males. This figure is considerably lower than the average sex-ratio for the State which is 960. This very low sex-ratio in Bangalore district vis-a-vis the State of Karnataka may be attributed to such factors as high degree of urbanisation and migration. The sex-ratio is generally higher in the rural areas than in urban areas. In the rural areas of the Bangalore district the ratio is 907 which is above the corresponding urban ratio of 902 in the district. The corresponding State figures are 973 and 930 respectively. In various taluks of the district the sex-ratio varies between 899 in Anekal and 911 in Bangalore South. The talukwise (i.e. C.D.Blockwise) sex ratio data are set out in Table-7.

Table 7 : Sex Ratio for Rural Population of C.D.Blocks, 1991

Sl.No.	Name of C.D.Block/Taluk	No. of females per 1000 males
1	2	3
1.	Anekal	899
2.	Bangalore North	906
3.	Bangalore South	911
	District Rural	907

In Bangalore North taluk the sex ratio is almost the same as the district rural average. In Bangalore South taluk the sex-ratio is higher than the district rural average, whereas the ratio is below in Anekal taluk. In the case of towns the average sex ratio

for the district is 902. The townwise particulars are presented in Table-8.

Table 8 : Sex Ratio for Towns, 1991

31.	Saneguruvanahalli (NMCT)*	846
32.	Vijanapura (NMCT)	920
33.	Yelahanka (TMC)*	823
	District Urban	902

* Includes population of Outgrowths.

There are 18 towns in the district where the sex ratio is lower than the 900 mark - Anekal, Yelahanka, Dasarahalli, BEL Township, Laggere, Saneguruvanahalli, Pinya, Hebbal, Kammagondanahalli, HMT Township, Jalahalli, Geddalahalli, HA Sanitary Board, Byatarayanapura, Baiyyappanahalli, Mahadevapura, Benniganahalli and Kadugodi. The highest sex ratio of 947 is in Devarajeevanahalli town and lowest is in Pinya with 749 which shows a fluctuation of about two hundred points between maximum and minimum in the district!

(ix) Scheduled Castes

At the 1991 census there are 711,775 members of the Scheduled Castes community in total population of 4,839,162 in Bangalore district. Against 14.71 per cent of this community in the total population of the district the share is 16.38 per cent in the State of Karnataka. Out of total Scheduled Caste population of 711,775 the rural residents are only 178,494 and rest live in towns. Rural and urban residents of the Scheduled Castes community are 25.08 per cent and 74.92 per cent respectively. The Scheduled Castes community in the district forms 14.71 per cent, 26.64 per cent and 12.79 per cent of the total, rural and urban population of the district respectively. This community is living in over 90 per cent of inhabited villages of the district. Table-9 may be referred to for details in this regard.

Table 9 : Proportion of Scheduled Castes Population to Total Population in villages, 1991

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	34	5.37
6-10	43	6.80
11-15	63	9.95
16-20	68	10.74
21-30	138	21.80
31 and above	287	45.34
All ranges	633	100.00

As can be seen from the table out of the 681 populated villages in the district the Scheduled Castes community is found in 644 (92.95 per cent) villages. Their presence may be regarded as nominal in 77 villages where they constitute 10 per cent of the village population or even less. These villages constitute 12.17 per cent of 633 villages having Scheduled Castes population. In as many as 269 (42.49 per cent) villages the range of Scheduled Castes population to total population varies between 11 per cent to 30 per cent. It is only in 45.34 per cent of the villages having Scheduled Castes population that they constitute a sizeable chunk of the village population, for in these 287 villages at least one out of every three persons belongs to a Scheduled Caste.

The distribution of Scheduled Castes community in towns of the district is given in Table-10. It shows

that this community is found in varying numbers in each town of the district.

Table 10 : Percentage of Scheduled Castes Population in towns, 1991

Sl. No.	Name of Town	Total Population	Total Scheduled Castes Population	Percentage of Scheduled Castes Population to Total Population

	District Urban	4169253	533281	12.79

* Includes population of Outgrowths.

The proportion of this community is below that of the district urban average of 12.79 per cent in Anekal, Dommasandra, Yelahanka, Dasarahalli, Laggere, Saneguruvanahalli, Lingarajapura, HMT Township, Byataguttepalya, Kadgod and Bangalore City Corporation. The percentage share of Scheduled Castes population to total population is above 15 but below 20 per cent in Kadugondanahalli, Kacharakanahalli, Nagavara, Hebbal, Jalahalli, Geddalalahalli, I.T.I., HAL Township, Mahadevapura and Benniganahalli. It is above 20 but below 30 per cent in Devarajeevanahalli, BEL Township, Pinya, Kaval Byrasandra, HA Sanitary Board, Koramangala, Vijanapura, Banasavadi and Byatarayanapura towns. The share of Scheduled Castes is above 30 per cent in Kammagondahalli, HMT Watch Factory and Baiyyappanahalli towns.

Numerical concentration of the Scheduled Castes community in urban areas is in Bangalore City itself where about 72 per cent reside. In Bangalore city this community is about four lakhs. In Devarajeevanahalli, HA Sanitary Board, I.T.I., and Koramangala the concentration is above ten thousand each. These towns put together account for about 11 per cent of the community residing in urban areas. In other words about 82 per cent of the community is concentrated in the above five towns. Rest of the community (94679) is scattered over the remaining towns.

(x) Scheduled Tribes

The strength of the Scheduled Tribes community in the district is 53,631 in a total population of 4,839,162. The share is 1.11 per cent. The share in the State is 4.26 per cent. The rural-urban break up of the community is 14,569 and 39,062. The rural and urban shares come to 27.17 per cent and 72.83 per cent respectively. The share of this community in the rural and urban population of the district is 2.17 per cent and 0.94 per cent. The State figures are 5.24 per cent and 2.06 per cent respectively.

Village-level data reveal that the rural-resident Scheduled Tribes are found only in 258 (37.89 per cent) villages out of the total 681 populated villages of the district. If these villages are classified according to the proportion of the Scheduled Tribes population to the total population of the village concerned, by ranges, the position would be as shown in Table-11.

Table 11: Proportion of Scheduled Tribes Population to Total Population in Villages, 1991

Percentage range of Scheduled Tribes Population to total Population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	187	72.48
6-15	38	14.73
16-25	13	5.04
26-35	6	2.33
36-50	2	0.77
51 and above	12	4.65
All ranges	258	100.00

The presence of the Scheduled Tribes may be regarded as marginal in as many as 72.48 per cent of the villages in which they constitute 5 per cent of the population or less. In another 14.73 per cent of the villages they constitute only between 6 to 15 per cent. However, in 4.65 per cent or in 12 villages they constitute a majority community (i.e. 51 per cent or more) and in 3 per cent of the villages they account for more than one-fourth of the village population.

A townwise distribution of the Scheduled Tribes population of Bangalore district is given in Table-12. It may be noted that this community is residing in every town.

Table 12 : Percentage of Scheduled Tribes Population in Towns, 1991

32.	Vijanapura (NMCT)	21856	213	0.97
33.	Yelahanka (TMC)*	50782	817	1.61
	District Urban	4169253	39062	0.94

* Includes population of Outgrowths.

There are 16 towns including Bangalore City in which the share of the community is below the district average of 0.94 per cent. The least share of the community is in Byataguttepalya. There are 3 towns in which the share is above the district level but below 1 per cent. Towns in which the share is above 1 per cent but below 2 per cent are 10 in number. The share is 2.65 per cent in HMT Township, 3.10 per cent in BEL Township, 6.84 per cent in Jalahalli and 7.01 per cent in Benniganahalli. Numerical strength of the community varies from 4 in Kadugodi to 28324 in Bangalore City. In fact, Bangalore City alone accounts for 72.51 per cent of the urban Scheduled Tribes population of the district.

(xi) Literacy

In the 1991 census all the children in the age group of 0-6 years are treated as illiterate. Excluding the children of the above mentioned category, the 1991 literacy rates for the total, male and female segments of the district are 76.27 per cent, 82.95 per cent and 68.81 per cent respectively. The corresponding literacy rates for the State are : 56.04 per cent, 67.26 per cent and 44.34 per cent respectively. The literacy rates returned by the district are very high in comparison to the State level averages. In the rural population of the district the literacy rate is 56.68 per cent. It is higher among males (67.97 per cent) and lower among females (44.09 per cent). The taluk level literacy rates classified by sex are provided in Table-13.

Table 13 : Literacy Rates for Rural Population of Taluks (C.D.Blocks) by sex, 1991
(Excluding children in the age-group 0-6)

Sl.No.	Name of Taluk/C.D.Block	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1.	Anekal	54.37	65.60	41.74
2.	Bangalore North	58.13	69.79	45.14
3.	Bangalore South	57.21	68.28	44.93
	District Rural	56.68	67.97	44.09

It may be seen that the literacy rates in Anekal taluk are lower than the district rural averages. Remaining two taluks have literacy rates above the district rural averages. Bangalore North taluk tops in literacy rates for the entire district in respect of total population and also for male and female segments of population. The literacy rates for the urban population is higher than the corresponding rates for the rural population in the district. Against the total, male and female literacy rates of 56.68 per cent, 67.97 per cent and 44.09 per cent for the rural population of the district, the rates for the urban population are 79.33 per cent, 85.28 per cent and 72.68 per cent. Townwise literacy rates by sex are presented in Table-14.

Table 14 : Literacy Rates for towns, 1991
(excluding children in the age-group 0-6)

Sl.No.	Name and Civic Administration Status of Town	Percentage of Literates		
		Persons	Males	Females

30.	Pinya (NMCT)*	78.84	86.63	67.95
31.	Sancguruvanahalli (NMCT)*	70.95	80.14	59.74
32.	Vijanapura (NMCT)	77.59	83.55	71.10
33.	Yelahanka (TMC)*	77.86	85.04	68.28
	District Urban	79.33	85.28	72.68

* Includes population of Outgrowths.

At the outset it may be noted that the range of variation of literacy rates among towns for male population is from 64.00 per cent in Devarajivanahalli to 97.31 per cent in HAL Township, and for female population from 52.45 per cent in Laggere to 89.86 per cent in HAL Township. The range for total population is from 59.13 per cent in Devarajivanahalli to 93.73 per cent in HAL Township. In the case of 9 towns the total literacy rates are above the district urban average of 79.33 per cent. In HAL Township the literacy rate is 93.73 per cent which is highest among towns in the district. Next to it are HMT Township (90.58 per cent) and Lingarajapura (87.50 per cent). Among 24 towns in which the total literacy rates are below the district

average Devarajivanahalli with 59.13 per cent occupies the lowest position followed by Koramangala (62.12 per cent) and Dommasandra (63.09 per cent). Most populous town of the district, Bangalore is having a literacy rate of 80.49 per cent. In respect of male population also the three towns of Lingarajapura, HMT Township and HAL Township with literacy rates of 91.17 per cent, 95.08 per cent and 97.31 per cent respectively occupy the top slot. In fact, along with these three towns there are in all 13 towns in which the male literacy rates are above the district average of 85.28 per cent. Bangalore (MC) is included among these towns. In the remaining 20 towns, in which the literacy rates for the male population are below the district average, the lowest position is occupied by Devarajivanahalli (64.00 per cent) preceded by Koramangala (70.20 per cent) and Dommasandra (71.92 per cent). The towns of Lingarajapura, HMT Township and HAL Township with female literacy rates of 82.75 per cent, 85.26 per cent and 89.86 per cent again form the top trio. There are in all 7 towns, including the above three in which the female literacy rates are higher than the district level average of 72.68 per cent. In the remaining 26 towns in which this rate is below the corresponding district rate, the lowest rate is witnessed in Laggere (52.45 per cent), preceded by Koramangala (53.19 per cent) and Dommasandra (53.35 per cent).

(xii) Main Workers, Marginal Workers and Non-workers

In Bangalore district 1635987 persons are main workers and 22311 persons are marginal workers. Total workers in the district in this way are 1658298. Non-workers numbering 3180864 are about twice the number of workers. The share of main workers, marginal workers and non-workers in the total population of the district is 33.81 per cent, 00.46 per cent and 65.73 per cent respectively. The corresponding State ratios are 38.45 per cent, 3.54 per cent and 58.01 per cent respectively. The share of non-workers in the district is comparatively much higher than the State. Consequently the work participation rate is comparatively lower in the district.

The share of workers and non-workers in the rural population of the district in 1991 census is given in Table-15. About 39 per cent of total rural population and more than half of its male population and about one-fifth of its female population are reported as main workers in the district.

It may be seen that the proportion of main workers is more than the district rural average only in Anekal C.D.Block (41.65 per cent) followed by Bangalore South C.D.Block (38.27 per cent) and Bangalore North C.D.Block (37.49 per cent). Consequently, the proportion of non-workers is below

Table 15 : Percentage of Main Workers, Marginal Workers and Non-Workers for Rural Population of Taluks (C.D.Blocks), 1991

Sl. No.	Name of the Taluk/C.D. Block	Percentage of											
		Main Workers to Total Population			Marginal Workers to Total Population			Total Workers to Total Population			Non-Workers to Total Population		
		P	M	F	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1.	Anekal	41.65	57.74	23.74	1.15	0.15	2.27	42.80	57.89	26.01	57.20	42.11	73.99
2.	Bangalore North	37.49	55.67	17.43	2.23	0.36	4.30	39.72	56.03	21.73	60.28	43.97	78.27
3.	Bangalore South	38.27	55.72	19.14	2.22	0.31	4.30	40.49	56.03	23.44	59.41	43.97	76.56
	District Rural	38.99	56.28	19.91	1.92	0.28	3.73	40.91	56.56	23.64	59.09	43.44	76.36

the district rural average of 59.09 per cent in Anekal taluk (57.20 per cent) preceeded by Bangalore North taluk (59.41 per cent) and Bangalore South taluk (60.28 per cent). In the case of marginal workers the highest proportion is reported from Bangalore North taluk (2.23 per cent) against a district rural average of 1.92 per cent.

The sexwise break up shows that Anekal taluk tops the list both in male and female main workers with 57.74 per cent and 23.74 per cent respectively, which is over and above the corresponding district rural average of 56.28 per cent and 19.91 per cent. The highest proportion of male non-workers are reported in both Bangalore North and Bangalore South taluks with identical 43.97 per cent followed by Anekal taluk with 42.11 per cent. Whereas the highest proportion of female non-workers is reported from Bangalore North taluk (78.27 per cent) closely followed by Bangalore South taluk (76.36 per cent) and least proportion is reported in Anekal taluk (73.77 per cent). In the case of marginal workers the sexwise break up reveals that the male marginal workers are highest in Bangalore North taluk (0.36 per cent) and least in Anekal taluk (0.15 per cent) whereas female marginal workers are identical in Bangalore North as well as Bangalore South taluks (4.30 per cent) against the district rural average of 3.73 per cent.

In the total urban population of the district the main workers, marginal workers and non-workers constitute 32.97 per cent, 0.23 per cent and 66.80 per cent respectively. The sexwise distribution of main workers, marginal workers and non-workers in each town of the district is provided in Table-16.

The extent of main workers in total population is less than the district average of 32.97 per cent in the case of 21 towns. It is lowest in Devarajivanahalli at 28.77 per cent. The core town

of Bangalore City has 32.94 per cent of its population as main workers. There are 12 townships in which the proportion of main workers is above the district average. It is maximum (39.24 per cent) in Pinya followed by Dasarahalli (38.78 per cent) and Laggere (38.10 per cent).

Participation rate of males in the category of main work is 52.56 per cent in the urban population of the district. It is very much high compared to the rates relating to the total main workers and female main workers. There are 19 towns in which the male main workers ratios are below the district average. It is least in Hebbal (49.14 per cent). On the other hand there are 14 towns in which the proportion of male main workers is in greater proportion than the district average. In Dasarahalli the figure is as high as 60.78 per cent, closely followed by Pinya (60.71 per cent) and Mahadevapura (60.00 per cent).

In the female population of the towns the main workers constitute 11.27 per cent. It is as low as 4.14 per cent in Kammagondahalli. There are in all 25 towns where the proportion of main workers in female population is less than the district ratio. In the remaining eight towns the proportion of main workers are more than the district average. In HMT Watch Factory it is highest at 14.19 per cent. It is due to the high proportion of females working in the HMT Watch Factory. In the following towns, the proportion is above 12 per cent - Anekal, Laggere and Koramangala. There are marginal workers in all the towns of the district, however male marginal workers have not been reported from Dommasandra and HMT Watch Factory. Marginal workers' proportion is minimum in Hebbal town, and it is maximum in Baiyyappanahalli. In Baiyyappanahalli the proportion of male and female marginal workers are highest among all the towns of the district. Proportion of female marginal workers as well as male marginal workers is minimum in Hebbal among all the towns of the district.

Table 16 : Percentage of Main Workers, Marginal Workers and Non-Workers in Towns, 1991

Sl.No.	Name and Civic Administration Status of Town	Percentage of											
		Main Workers to Total Population			Marginal Workers to Total Population			Total Workers to Total Population			Non-Workers to Total Population

* Includes population of Outgrowths.

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE

The Primary Census Abstract furnishes, in a nutshell as it were, vital information on the basic demographic and economic composition of the population. This statement, referred to as PCA, summarises the whole mass of data gathered at the Census. The smallest geographical unit with a clearly defined boundary identifiable on the field that has been delineated for ensuring cent per cent coverage of the area under the jurisdiction of various administrative units is the Census Enumeration Block. The details gathered in the household schedules in respect of each and every person enumerated in each such block have been meticulously tabulated to prepare this Primary Census Abstract. The tabulation has been done entirely by manual processing of the data at the Regional Tabulation Offices. The village PCA is derived from the Block PCA and in case of urban areas, the Block PCA has yielded the ward and Town PCA. In turn, the Taluk (Rural) and Taluk (Urban) as well as Taluk (Total) PCA statements as well as the C.D.Block-wise PCA Statements are built up on the basis of Village-wise and Town-wise data. This process goes on until it yields the data for higher and higher administrative divisions, such as the District and the State, culminating at the apex in the form of a single line statement for the country. The entire edifice thus rests on the information contained in the household schedules filled up by the enumerator.

The District Primary Census Abstract is presented immediately after this Explanatory Note. This statement gives the aggregate figures for the district with the rural-urban break up, the aggregate figures for each C.D.Block (with the rural-urban break up) and the aggregate figures for each town/urban agglomeration within the district. It is important to note that the lowest unit for which the data are presented here is the C.D.Block and not the traditional taluk*. Thereafter the C.D.Blocks within the district are taken up one by one in the alphabetical order of their names. For each C.D.Block, an alphabetical list of villages (which indicates the code numbers assigned to villages in

1991 as well as the corresponding code numbers assigned in 1981) precedes the presentation of the village-wise PCA followed by the ward-wise PCA in respect of towns and outgrowths if any within the jurisdiction of the concerned C.D.Block. After thus exhausting all the C.D.Blocks in the district, the town/urban agglomerations are covered one by one in the ascending order of their location code numbers without regard to the fact whether any of these towns or portions thereof (eg. outgrowths) have already been covered under one or the other of the Community Development Blocks. As in 1981, on this occasion too, the PCA has been compiled separately in respect of the Scheduled Castes and Scheduled Tribes Population of the District. The District PCA for Scheduled Castes and for Scheduled Tribes are presented after the PCA for the urban areas. The pattern of presentation of data in these two statements is the same as that adopted for presentation of data in the District PCA.

It may be recalled that in Karnataka the term Community Development Block is not in vogue and that its equivalent is the Taluk Panchayat Samiti. The jurisdiction of each Taluk Panchayat Samiti is coterminous with that of the corresponding Taluk but excludes the statutory towns. In other words, the administrative jurisdiction of a Taluk Panchayat Samiti covers all the villages of the Taluk (as listed out for the 1991 census) as also the villages or parts thereof which have been classified as non-municipal towns for purposes of the 1991 census and the revenue villages or portions thereof which have been identified as outgrowths of statutory towns and have therefore been excluded from the purview of Rural PCA. It is important to remember that in this statement, the particulars relating to the non-municipal towns (such as those administered by Mandal Panchayats) and those relating to the outgrowths (places which are not towns in their own right) are repeated - for these appear once below the concerned C.D.Block and again under the 'urban areas' of the district.

** For purposes of comparison with 1981 data the Taluk wise District PCA with Rural - Urban breakup is given in Appendix I.*

The Primary Census Abstract has 21 main columns to furnish information about the name of the unit, area, number of occupied residential houses, number of households, population, number of persons in the age-group of 0-6, number of persons belonging to Scheduled Castes and Scheduled Tribes, number of literates, number of main workers and their distribution among nine industrial categories, number of marginal workers and the number of non-workers. In the District PCA, each column indicating the data on population characteristics is sub-divided into 3 columns in order to indicate the total as well as the sex-wise break-up whereas in the village/town PCA, each such column (with the exception of Total Population and Population in the 0-6 age group) is sub-divided into two columns to indicate the sex-wise break-up only.

It may be mentioned at this juncture that for each town/urban agglomeration in the district, information regarding the total population, Scheduled Castes Population and Scheduled Tribes Population of each census enumeration block as also the particulars regarding the boundaries of each Census Enumeration Block have been compiled and are kept for the census data users' reference in the Library of the Office of the Director of Census Operations, Karnataka.

COLUMN 1 : Location Code Number :- The location code number assigned to the village or the town as the case may be is entered in this column.

COLUMN 2 :- Name of Village/Town/Ward :- The name of the village or the town as finally adopted for the 1991 census purposes is entered in this column. The towns and cities are often divided into smaller geographical segments called wards, mohallas or divisions for purposes of administration. Such units bear distinctive locality names or specific numbers. It is this name or the number of the ward or its equivalent unit that is mentioned here in the case of towns.

Irrespective of whether a town is divided into administrative wards or not, every town is invariably constituted into territorial divisions for the conduct of civic elections. This delimitation of constituencies is done as an essential and preliminary process of civic elections scheduled to be held periodically.

So, in some cases the name or number reported in this column refers to such territorial divisions and not to administrative divisions.

COLUMN 3 : Area of the Village in Hectares and of Town in Square Kilometres :- For the villages, the area is reported here in hectares upto two places of decimal and for the towns, as also the wards or divisions thereof, the area figures are furnished in square kilometres upto two places of decimal. It may be incidentally mentioned here that for none of the towns in the State, Ward/Division-wise area figures are available. If the area figures are not available for any reason, a dash (-) is entered in this column.

COLUMN 4 : Number of Occupied Residential Houses :- A 'Census House' could be wholly residential or partly residential or else completely non-residential according to the use to which it is put. All census houses enumerated as either wholly or partly residential at the time of the census count are added together to get the data for the block and from thence to derive the data for higher units. Houses found vacant at the time of the census count are not reckoned as occupied residential houses. The information for this column has been compiled from the Abridged Houselists.

COLUMN 5 : Number of Households :- This information too is compiled from the Abridged Houselists. The actual total number of households including the 'normal', 'institutional' and the 'houseless' that were enumerated at the census count is mentioned in this column. Generally, the number of households in any unit would be equal to or more than the occupied residential houses in that unit because of the houseless households that one may come across in that unit and also because of the occasional instances of two or more households sharing a common census house.

COLUMNS 6, 7 AND 8: Total Population (including Institutional and Houseless Population):- The total population as on the reference date is furnished in column 6 while in the next two columns the sex-wise break-up is given. The institutional population refers to such of those who were enumerated in institutions like hostels, chummeries, hospitals, prisons etc. The houseless persons

represent those who were enumerated on the night of 28th February 1991 at the places where they were found at that time, provided they had not already been enumerated elsewhere.

COLUMNS 9, 10 and 11 : Population in the age group (0 - 6) :- The total number of children belonging to the age-group of 0-6 in the total population as also the number of males and females among them are reported under these three columns. This information is of considerable significance since all such children are regarded as illiterate at the 1991 Census.

COLUMNS 12 AND 13 : Scheduled Castes :- Number of males and females belonging to Scheduled Castes is indicated in these two columns. Whether a person belongs to a Scheduled Caste or not has been determined with reference to the List of Scheduled Castes in Karnataka according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No. 108 of 1976) (See Appendix). Scheduled Castes may belong to either the Hindu or the Sikh or the Buddhist religion.

COLUMNS 14 AND 15 : Scheduled Tribes :- Number of males and females belonging to Scheduled Tribes is reported under these columns. Whether a person belongs to a Scheduled Tribe or not has been determined with reference to the 'List of Scheduled Tribes in Karnataka' according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No.108 of 1976) (See Appendix for the list). Scheduled Tribes may belong to any religion.

COLUMNS 16 AND 17 : Literates :- Sex-wise break up of the total number of persons who are literate, irrespective of their levels of educational attainments is given in these two columns. By definition a literate is a person who can both read and write with understanding in any language. It is important to note that for purposes of the 1991 census by definition all children in the 0 - 6 age group are regarded as illiterate. Even if such a child is going to school and has picked up reading and writing a few odd words it is treated as illiterate.

COLUMNS 18 AND 19 : Total Main Workers:- A worker is a person who participates in economically

productive work. The reference period for judging whether a person is a worker or not in the year preceding the day of enquiry. If a person had worked even for one day during this entire period he or she is entitled to be classified as a worker. If for any such worker the period of work is 183 days or more then that person is a main worker. On the other hand, if such period is less than 183 days then that worker is a marginal worker. In columns 18 and 19 the total number of main workers is furnished sex-wise and a sex-wise break up of these main workers according to the nine-fold 'industrial classification of workers' is presented in the next 20 columns i.e., from column 20 to column 39.

COLUMNS 20 AND 21 : Cultivators (Category-I) :- These two columns give out the number of male and female workers who satisfy the conditions laid down in the definition of a cultivator. A cultivator may be an employer, a single worker or an unpaid family worker. Participation in work may be by way of physical labour or by way of supervision and direction. The lands cultivated may be owned by the household or taken on lease for payment in money or kind or share in the produce. Cultivation, as already emphasised involves ploughing, sowing and harvesting and allied activities in the production of cereals and millet crops, pulses, raw jute and kindred fibres, sugarcane, tapioca and oil seeds.

COLUMNS 22 AND 23 : Agricultural Labourer (Category -II) :- A person who works in another person's land for wages in money or kind or share and does not have any lease or contract on the land on which he or she works is an agricultural labourer. In this case too, the crops grown on the lands are quite pertinent and the difference between a cultivator and an agricultural labourer lies in the fact that the former works on his own or leased in lands as an independent worker while the latter works for wages having no right whatsoever on the lands on which he works. The sex-wise break-up of such workers is given in these two columns.

COLUMNS 24 AND 25 : Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities (Category - III) :- A sex-wise break up of the workers who were mainly engaged in activities connected with livestock rearing, forestry

and logging, hunting, fishing, plantations, orchards etc., is given under these columns.

COLUMNS 26 AND 27 : Mining and Quarrying (Category - IV) :- A sex-wise break up of the workers mainly engaged in activities connected with mining and quarrying is given under these columns.

COLUMNS 28 AND 29 : Manufacturing, Processing, Servicing and Repairs - Household Industry (Category - V[a]) :- Household industry belongs to the broad category of 'manufacturing, processing, servicing and repairs' and represents a particular sector therein. Household industry is generally conducted by the head of household himself or herself and or mainly by the members of the household, at home or within the village in the case of those dwelling in rural areas and only within the residential premises occupied by the household in the case of those living in urban areas. A person may be a labourer or a petty employee in the household industry run by some other household. By and large the household industry is carried on by individuals on a small scale with or without the assistance of family members all of whom work as unpaid family workers and the entire earnings are treated as family income.

COLUMNS 30 AND 31 : Manufacturing, Processing, Servicing and Repairs - Non-household Industry (Category - V[b]) :- A sex-wise break up of the workers who were engaged in manufacturing, processing, servicing and repair activities in establishments which do not qualify to be classified as household industry as defined above {category V(a)} is given here.

COLUMNS 32 AND 33 : Construction (Category-VI) :- Workers engaged in construction, maintenance, upkeep, repair and similar activities of buildings, roads, railways, bridges, dams, canals, electrical and water supply installations, communication systems etc., are shown under this category.

COLUMNS 34 AND 35 : Trade and Commerce (Category - VII) :- In these two columns the number of male and female workers engaged in wholesale or retail trade in goods or engaged in dealing with insurance, stocks and shares, banking and financial institutions etc., either as proprietors or in any other capacity are indicated.

COLUMNS 36 AND 37 : Transport, Storage and Communications (Category - VIII) :- A sex-wise breakup of the workers in establishments such as railways, road transport, transportation by water-ways or by air, postal and telegraphs, telecommunications etc., which are engaged in transport, storage and communication activities is given in these columns.

COLUMNS 38 AND 39 : Other Services (Category - IX) :- This residuary category includes employees of the Central and State Governments, local bodies and other organisations and institutions engaged in educational, scientific, medical and health services, religious and welfare services, community services, recreational services, personal services and other miscellaneous activities not covered in the 8 categories specified above.

COLUMNS 40 AND 41 : Marginal Workers :- Males and females who are workers but have worked for less than 183 days during the reference year are reported under these two columns. Such workers, irrespective of the economic sector in which they work, are considered together and reported here.

COLUMN 42 AND 43 : Non-workers :- Irrespective of age and sex, all those who are not economically active are non-workers and a sex-wise break-up of such persons is given in these two columns. The aggregate of the main workers, marginal workers and non-workers would be equal to the total population of that unit.

NOTE :

1. The area figure for the district given under column No.4 against "Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D.Blocks/Taluks in the district will not tally with the district figures (except urban), because the area figures for C.D.Blocks/Taluks represent the land-use area based on village-wise area figures as reported by the Local Officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D.Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Outgrowths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town :

MC	: Municipal Corporation
CMC	: City Municipal Council
TMC	: Town Municipal Council
NAC	: Notified Area Committee
CB	: Cantonment Board
SB	: Sanitary Board
MP	: Mandal Panchayat
NMCT	: Non-Municipal Census Town

BANGALORE NORTH C.D.BLOCK

Note :

The following revenue villages of Bangalore North Taluk which had been assigned location code numbers have since been classified as outgrowths of Bangalore Urban Agglomeration.

L.C. No.	Name of Village	L.C. No.	Name of Village
1	Gurihodeyomaidana	205	Hunasamaranahalli
2	Hebbal Amanikere	208	Suggatta
3	Hennur	225	Yelahanka
4	Shampur	233	Sivanahalli
5	Bhupasandra	239	Amrithahalli
6	Purnapura	240	Kempapura
7	Lottegollahalli	241	Byatarayanapura
8	Nagashettihalli	242	Kotihosahalli
9	Nagarabavi	243	Kodigehalli
10	Mallathahalli	244	Kodigehalli Plantation
11	Srigandadakaval	245	Dodda Bommasandra
22	Hegganahalli	246	Ramachandrapura
24	Nallakadiranahalli	247	Narasipura
26	Chokkasandra	249	Singapura
27	Nagasandra	251	Tindlu
29	K.G.Bagalakunte	253	Allalasandra
40	Mallasandra	255	Puttanahalli
41	Pinya Plantation	279	Vaderapura
83	Chikkabidarakallu	281	Venkatala

Hence these villages do not find a mention in the alphabetical list of villages as well as in the PCA Statement. This explains the gap in location code numbers noticed in the list of villages and the PCA Statement of Bangalore North C.D.Block. However these units appear in the urban category as part of Bangalore Urban Agglomeration.

BANGALORE SOUTH C.D.BLOCK

Note :

The following revenue villages of Bangalore South Taluk which had been assigned location code numbers have since been classified as outgrowths of Bangalore Urban Agglomeration.

L.C. No.	Name of Village	L.C. No.	Name of village
11	Hulimavu	52	Bikasipura
13	Arakere	89	Kengeri
16	Bilekahalli	90	Valagerchalli
17	Bommanahalli	91	Chodenapura
18	Rupena Agrahara	131	Nagadevanahalli
19	Madivala	132	Nayandahalli
20	Ejipura	133	Pantapalya
21	Shinivagil	134	Kenchenahalli
22	Jakkasandra	135	Halagevaderahalli
23	Agara	136	Patnagere
25	Venkoji Rao Kere	137	Mailasandra
27	Yellukunte	152	Kodigihalli
28	Hongasandra	154	Pattandur
29	Singasandra	157	White Field
40	Channasandra	159	Nallurhalli
43	Ittamadu	160	Kundlahalli
44	Hosakerchalli	161	Channappanahalli
45	Kathreguppe	162	Sonnenahalli
46	Chikkakallasandra	163	Hudi
47	Kadarenahalli	164	Srinivasapura
48	Jaraganahalli	165	Binnamangala M.Kaval
49	Sarakkikere	166	Baiyyappanahalli M.Kaval
50	Puttenahalli	172	Munekollal
51	Elachenahalli	237	Medahalli
		238	Battarahalli

Hence these villages do not find a mention in the alphabetical list of villages as well as PCA statement. This explains the gap in location code numbers noticed in the list of villages and the PCA statement of Bangalore South C.D.Block. However, this units appear in the urban category as part of Bangalore Urban Agglomeration.

29. Kurumans
30. Maha Malasar
31. Malaikudi
32. Malasar
33. Malayekandi
34. Maleru
35. Maratha (in Coorg District)
36. Marati (in South Kanara District)
37. Meda
38. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
39. Palliyan
40. Paniyan
41. Pardhi, Advichincher, Phanse Pardhi
42. Patelia
43. Rathawa
44. Sholaga
45. Soligaru
46. Toda
47. Varli
48. Vitolia, Kotwalia, Barodia
49. Yerava

Appendix III - PUBLICATION PLAN

The 1991 Census tables will be published in 33 separate series of volumes for All - India and for each State and Union Territory. The publication series is as follows:

Series No.	10. Jammu & Kashmir	23. Tamil Nadu
1. INDIA	11. Karnataka	24. Tripura
States	12. Kerala	25. Uttar Pradesh
2. Andhra Pradesh	13. Madhya Pradesh	26. West Bengal
3. Arunachal Pradesh	14. Maharashtra	Union Territories
4. Assam	15. Manipur	27. Andaman & Nicobar Islands
5. Bihar	16. Meghalaya	28. Chandigarh
6. Goa	17. Mizoram	29. Dadra & Nagar Haveli
7. Gujarat	18. Nagaland	30. Daman & Diu
8. Haryana	19. Orissa	31. Delhi
9. Himachal Pradesh	20. Punjab	32. Lakshadweep
	21. Rajasthan	33. Pondicherry
	22. Sikkim	

In each of these series (for all - India and each State/Union Territory) the different series of tables (A Series - General Population Tables, B - Series - General Economic Tables, etc.,) will be brought out as different Parts. Apart from these, District Census Handbooks will be published for each district in the country. These will contain the PCA data for the district, the village and town primary census abstract and the village and town directories. The latter comprise compilations of statistics, external to census relating to the villages and towns, which in conjunction with census data will be very useful to data users.

For all - India and for each State and Union Territory, the census tabulations and reports will be published according to the following plan:

Part No. and subject covered	Sub-part No. if any, and the topics covered
1	2
Part I - Administration Report (for Office use only)	Part I-A - Administration Report Enumeration Part I-B - Administration Report Tabulation
Part II - General Population Tables	Part II-A - General Population Tables - A-Series Part II-B - Primary Census Abstract
Part III - General Economic Tables	Part III-A - B-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories. Part III-B - B-Series tables of second stage which will be brought out on full count. The data relating HHI, OW, Marginal Workers and Non-workers seeking/available for work will be entered on full count basis.

Part IV - Social and Cultural Tables

Part IV-A - C-Series tables of first stage covering age, sex and marital status, composition of population, single year age returns, educational levels, school attendance and bilingualism.

Part IV-B - C-Series tables covering mother tongue, religion of population and household composition.

Part V - Migration Tables

Part V-A - D-Series tables of first stage covering tables based on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.

Part V-B - D-Series tables of second stage covering occupational classification of migrant workers. These tables are based on full count.

Part VI - Fertility Tables

F-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.

Part VII - Tables on Houses and Household Amenities

H - Series tables covering census houses and the uses to which these are put, construction material of wall, roof and floor of the census houses occupied by households, tenure status of the house occupied and number of living rooms, household size, housing facilities like drinking water, electricity and toilet available to households and the fuel used by the household for cooking. These tables will also cover tables on Scheduled Castes and Scheduled Tribes. This volume will contain analytical notes also.

Part VIII - Special Tables on Scheduled Castes and Scheduled Tribes

This part will contain SC and ST series of tables for Scheduled Castes and Scheduled Tribes respectively. The data relating to Scheduled Castes and Scheduled Tribes will be entered on full count basis in the third stage and SC/ST tables will be processed on the computer on full count. These will cover population of each Scheduled Caste/Tribe, industrial categories of main and marginal workers, non-workers seeking/available for work and those who never worked before, educational level, school attendance, age, sex and marital status, composition of Scheduled Castes and Scheduled Tribes. In addition to these, the fertility tables relating to SC/ST are also covered. These tables also cover for Scheduled Tribes, their composition by religion, mother tongue and bilingualism.

Part IX - Town Directory, Survey Report on Towns and Villages

Part IX - A - Town Directory

Part IX - B - Survey Report on selected Towns

Part IX - C - Survey Report on selected Villages

Part X	Ethnographic notes and special studies on Scheduled Castes and Scheduled Tribes
Part XI - Census Atlas	Union and State/Union Territory Census Atlases
Part XII - District Census Handbook	Part XII - A - Village and Town Directory
	Part XII - B - Village and Town wise Primary Census Abstract

The following special papers are also planned and will be published as and when they are ready as 1991 Census papers :

- (a) Special studies taken up by the Directors of Census Operations
- (b) Special Areas Surveys
- (c) Special Tables for Standard Urban Areas
- (d) Language Survey Reports
- (e) Post Enumeration Check Report
- (f) Age Tables
- (g) Life Tables
- (h) Reports on estimates of inter-censal birth and death rates using 1981-1991 life tables and age data
- (i) Development of Vital Statistics in India

Besides these special papers, some monographs based on 1991 Census data on subjects of topical interest to be prepared by scholars will be brought out as 1991 Census monographs.

It is also proposed to carry out some special studies of 1991 Census data in collaboration with other organisations and the results of such studies will be published as occasional papers of the 1991 Census.

It is also proposed to disseminate census tabulations and the basic data in machine readable forms such as magnetic tapes, diskettes, floppies, etc.

The District Census Handbooks will be available for sale at the Government Central Press, Bangalore and the other publications at the Office of the Director of Census Operations, Karnataka, Bangalore and the Manager of Publications, Civil Lines, New Delhi - 6.

ಮುದ್ರಕರು : ಸಹ ನಿರ್ದೇಶಕರು, ಸರ್ಕಾರಿ ಪತ್ರಿಕಾಪ್ರಕಾಶನ ಮುದ್ರಣಾಲಯ, ಸರಸ್ವತಿಪುರಂ, ಮೈಸೂರು.
